FIFTY-SEVENTH YEAR No. 244

LINCOLN, NEB., MONDAY MORNING, JULY 13, 1959

SEVEN CENTS

5-Inch Rain Falls

Ashland Deluged; Hail Near Crete

A rain-hail combination with no apparent pattern skipped across eastern Nebraska late Sunday afternoon, dumping as much as 5 inches of rain in some places.

Ashland recorded 5.65 inches of rain in a storm that started shortly after 5 p.m. and lasted about an hour.

Hail accompanied the rain at Ashland, stripping corn and small garden crops, but apparently doing no great damage. The wheat harvest is nearly completed in that area, observers said, so the damage to wheat will be slight.

The rain did cause Ashland residents a little trouble, however. The deluge flooded basements and streets in the low areas of the town, with one observer stating that water ran "about 3 feet deep" in some streets.

The storm skipped its way across the state, dumping over an inch of rain on Fremont, accompanied by a little hail. The storm there lasted only about 30 minutes, one observer said.

Crete Hit

Crete apparently was the recipient of the first force of the storm as it struck the Crete area about noon Sunday. Rain varied from .90 on the farm of Bill Muff, one mile south of Crete, to over 2 inches on the Tony Bahac farm one mile east of the town.

Hail in a narrow path in the vicinity south of Crete stripped the corn and caused extensive damage to the crop. The size of the hailstones ranged from those the size of a golf ball to others from 1/2 to 3/4 inch in size.

Bahac reported that some of his corn was sheared off completely in the hail storm, which was accompanied by heavy rain and high winds.

The weatherman continued to forecast rain and thunderstorms for Nebraska for Monday and Monday evening. The area affected, the Weather Bureau said, will be in central and western Nebraska. Warmer temperatures are forecast for Monday, however, with the high from 82 to 92.

Scottsbluff and Norfolk shared the state high temperature of 85 Sunday. Valentine reported a brisk 48 for the state low.

5 Perish In Crash

Ignacio, Colo. (P)—Five persons were killed Sunday when a two-engine plane crashed high in Colorado's southwestern mountains, setting off a big forest fire.

Charred bodies of a Chicago industrialist plus an Iowa woman, and her 3 children were found in scattered bits of wreckage.

The dead were identified as K. B. Ross of Chicago, President of Ross Manufacturing Co., Mrs. Betty Mink, 40, of Washington, Ia., and her children, Daniel, 17, and two younger girls.

Henry Long, owner of Durango, Colo., radio station was one of the first at the scene, a remote area 30 miles south-east of Durango.

Tried To Turn

"The pilot tried to clear a ridge at about the 8,000-foot level," Long said. "When he saw he couldn't, he tried to make a turn and the plane stalled. It crashed in a heap."

The flaming explosion started a forest fire that had swept over several hundred acres. Forest rangers, county jail prisoners and Indian firefighters were rushed to the scene.

6 Climbers Dead

Tokyo (P)—Six deaths already have been recorded in Japan's just-opened summer mountain climbing season. Two young girls were found frozen to death on Mt. Tate and two men and two girls fell to their deaths on Mt. Tanigawa. Last summer about 3 million Japanese went summer mountain climbing and 51 of them died.

DR. WALLACE E. LaBERGE . . . and many bees. (Star Photo.)

Bees To Help Alfalfa NU Entomologist's Idea

By Sam Hall

A bee in the bonnet of a University of Nebraska entomologist may someday put a buzzzzzzzz in the fields of Nebraska alfalfa farmers.

The bee in the bonnet is the theory of Dr. Wallace E. LaBerge that pollen-carrying native bees can be efficiently used to increase alfalfa crop seed yields.

But before Dr. LaBerge can get the bee out of his bonnet and into the field he must first do considerable research and experimenting to determine:

(1) How many species of native bees—not to be confused with the honey bee and bumble bee—exist in Nebraska.

(2) Where they live and their seasonal abundance.

(3) Which native bees are the principal pollinators of fruits and alfalfa.

2-3 Seasons

The experiment, he explains, will be time-consuming and require much survey work and traveling. Dr. LaBerge estimates that the work will be completed "in two or 3 seasons."

The 32-year-old taxonomist expects to run spot checks in most areas of the state, concentrating chiefly in the western two-thirds. This area, he says, "is the primary grower of seed alfalfa."

Special experiments are scheduled at the University's College of Agriculture experimental stations in Mitchell and North Platte.

Try 'Efficiency'

"At one of the experimental stations," he said, "we will try to determine the efficiency of certain bees as pollinators. This experiment will include the honey bee."

"Other experiments will consist of setting up cages over alfalfa plants and placing bees in the cages in order to watch their activity," the bee expert continued.

In addition, Dr. LaBerge plans to run experiments next year on some of the early fruit pollinating bees in eastern Nebraska.

From time to time throughout the experiments, Dr. LaBerge says that he hopes to have his findings printed in technical and experimental station publications.

Might Increase Yield

After determining which bees are the principle pollinators of fruits and alfalfa, Dr. LaBerge says, "It may be possible to increase the important bees, therefore making it possible to increase alfalfa seed yield."

Quoting a publication, he says "In Utah one man estimates that one pollen collecting bee during a 3-week period in a 10 square-yard area will produce about 400 pounds of alfalfa seed per acre." "That is quite a large yield," he added.

Taking a scientific stand, Dr. LaBerge hastens to point out that he's not predicting any earth-shaking results.

Done Elsewhere

Similar experiments on the importance of the bee as a fruit and alfalfa pollinator have been conducted in California, Utah, Arizona, Ontario and Saskatchewan with favorable results, he said.

Dr. LaBerge will be doing work much like that of the late Prof. Myron H. Swank of the university, who experimented with bee pollination between 1913 and 1916.

An interesting fact for the benefit of the layman, Dr. LaBerge said, is that the honey

bee and bumble bee are actually very few in number when compared to the large number of solitary or native bees. "There are over 10,000 species of solitary bees, but only 4 species of honey bees and 150 species of bumble bees."

'No Queen, No Workers'

The basic difference between the solitary bee and the honey bee and bumble bee, he explains, is that the majority of solitary bees do not live in colonies, but in the ground with each female laying its own egg. "Solitary bees have no queen and no workers."

A collector of bees, Dr. LaBerge has over 3,000 kinds of bees in his collection.

Dr. LaBerge received his bachelors and masters degrees from the University of North Dakota. He completed his doctoral work at the University of Kansas.

He lives with his family at 3403 Starr, and most recently came from Iowa State College in Ames, where he was a professor of entomology.

Stopgap Solution In Offing Talks On Berlin Resume Today

Geneva (P)—The Western powers were reported Sunday night to be seeking a 2½-year truce in Berlin that would include an ironclad agreement recognizing the right of the Western Big 3 to maintain and supply troops in that city.

At the same time a high-ranking Soviet official suggested a stopgap Berlin settlement that would keep things pretty much as they are there for the next 18 months.

The two reports indicated that the Soviet Union and the U.S., Britain and France were moving toward some kind of arrangement that would put the Berlin crisis on ice for a time. The differences appeared to be narrowing to one of time.

Mild Hopes

An air of cautious optimism prevailed in the Western camp on the eve of Round 2 of the Geneva foreign ministers conference. All 3 Western ministers flew into town expressing hopes for a limited agreement.

The general feeling in the Western camp was that the second round of talks will last two or 3 weeks and end in an agreement to carry the Berlin and German problems to a summit conference in September.

North Platte Boy Drowning Victim

North Platte, Neb. (P)—Frank Nansel, about 19, of Stapleton, drowned Sunday night in Lake Maloney.

He went down at the public beach on the south end of the lake while on an outing with two companions.

Lincoln County sheriff's officers joined North Platte police in searching for the body. The body had not been recovered about two hours after Nansel drowned.

Plants Start Closing

New York (P)—Steel industry negotiations collapsed Sunday with only 48 hours remaining before a threatened industry strike Tuesday midnight.

Both sides stalked angrily out of a meeting and said they had no plans for further sessions although they were willing to meet again.

David J. McDonald, president of the Steelworkers Union, charged industry negotiators headed by R. Conrad Cooper, executive vice-president of U.S. Steel Corp., with walking out.

"The industry walked out without making us any offer," McDonald said.

"I suggested we meet again tomorrow morning but they said 'No.'"

Ready Shutdown

Steel firms across the nation began the slow and costly process of banking furnaces and tapering off production in anticipation of a strike Tuesday midnight. Half a million workers would be affected.

It normally requires 3 days for a big steel mill to make an orderly shutdown.

In Pittsburgh, U.S. Steel Corp., the nation's biggest producer, started a banking blast furnaces. Jones and Laughlin Steel Corp., the No. 4 producer, cut coke making operations and said blast furnace banking will start Monday.

Refuses Changes

The union refused to yield any of the work-practice changes sought by the companies. It said this would be "a backward step" eliminating gains won in earlier years.

McDonald denied that existing labor contracts promote "feather-bedding" or unnecessary use of manpower—as the industry insisted is true.

Nor would the union agree to a renewed industry proposal to extend present contracts beyond the Tuesday midnight expiration of an earlier two-week truce.

"Surely it must be clear to everyone at this point," McDonald said, "that the industry does not want to negotiate and does not want to make an agreement."

That being true, McDonald said, a further contract extension would be pointless. But the industry said that with both sides so far apart a new and indefinite contract extension is "the only practical way" to prevent an otherwise inevitable strike.

The industry said a proposal by McDonald to put the questioned work practices up to an industry-union study committee for future recommendations and action was only avoiding and postponing a problem that has plagued the industry since 1947.

The Weather

NEBRASKA: Partly cloudy Monday with widely scattered storms over state afternoon and central and west night. Continued warm with nighttime temperatures up a little. High 82 to 92.

KANSAS: Widely scattered late afternoon and night thunder storms mostly west. Partly cloudy with slow warming trend. High Monday in 80s.

As Sides Strike Nears

State Safety Patrolman V. R. O'Neal tickets a motorist who exceeded the 45-mile night speed limit on U.S. Highway 6 west of Lincoln near Emerald. Three motorists were stopped here at one time.

A motorist digs for his driver's license as Trooper O'Neal gives his third ticket in 10 minutes. Minutes later he was chasing yet another speeder west of Lincoln. (Star Staff Photos.)

Patrol Halts 191 Here In Concentrated Effort

By Charles Beal

There was some question as to who was the busiest on highways near Lincoln Sunday night—the Nebraska Safety Patrol or motorists busy trying to count what seemed like herds of black and white Patrol cars along the routes.

One hundred ninety one motorists who failed to obey Nebraska's highway laws in Lancaster County were stopped for violations.

The 191 contacts by the Safety Patrol came between noon and 10 p.m. Sunday as

Col. C. J. Sanders' Headquarters Troop, one of the 5 troops in the state, concentrated in Lancaster County to crack down on speeders in line with orders from Gov. Ralph Brooks.

21 Troopers

The concentration, known as selective enforcement, had up to 21 men from the troop in 21 cars operating in the county at one time.

They were kept more than busy. All along U.S. 6 Sunday night, cars could be seen

pulled to the side of the road with State Troopers alongside quickly writing tickets or giving motorists firm but polite lectures.

The scene was repeated on U.S. 34 northwest of Lincoln and also during the day on county roads south of Lincoln in the Roca and Denton areas and north of the city from 27th street west.

Meanwhile, in Omaha, Troop A was conducting its own crackdown and Troop C at Grand Island was doing the same.

Other Counties

During a 9-hour period, Troop A had up to 10 men on the road and they issued 59 violation cards, 69 warning cards, arrested two drunk drivers, one careless driver, caught two motorists speeding, found one fictitious license plate and one car without a license.

In Hall County 8 summonses, 12 warnings, and 12 violation cards were issued. In addition, the patrolmen investigated one accident, gave a "few assists" to motorists and checked a number of vehicles.

In Merrick County, during a brief period, the patrolmen investigated two accidents, made one arrest and issued one warning.

Others Next

The anti-speed program is expected to continue in other counties and it won't be until motorists suddenly feel themselves surrounded by Safety Patrol cars that they will realize what's going on.

The radar units changed po-

sitions frequently near Lincoln during the day Sunday. Units switched several times between U.S. Highways 6 and 34.

The 21 troopers in Lancaster County Sunday contrasted with the "3 to 5 ordinarily," according to Patrol Captain Dan Casey, in charge of the Lancaster County operation.

The crackdown was termed "very successful" by Patrol Lieutenant J. E. Krueger, who handled assignments during the day.

Only one accident was reported during the day—a minor damage mishap which occurred when a lady lost control of her car and came to a stop in the ditch unharmed.

Butler Says Ouster Try Under Way

Washington (P)—Democratic National Chairman Paul Butler said Sunday "the noise and the fury" swirling about him stems in large part from a move to oust him and gain congressional domination of the 1960 Democratic convention.

Democrats on Capitol Hill who are seeking to do this, Butler said, want to replace him with a member of Congress.

He added there were reports that a Western senator had already been agreed upon as his successor. But Butler, in a TV interview declined to name the senator.

Butler said he believes quite strongly that the Democratic National Committee "is not about to elect a member of the Senate or House as chairman." And, he said, "I don't believe anybody would desire to see me ousted is going to accomplish it."

Butler once again contended that the Democratic leaders in Congress are moving too slowly toward what he calls a "positive and aggressive" legislative program. Again he insisted this was not meant as a criticism of such leaders as Senate Democratic Leader Lyndon B. Johnson and House Speaker Sam Rayburn, both of Texas.

Meanwhile Mark R. Holloran, Democratic national committeeman from Missouri said Sunday he thinks Butler should resign for the good of the party.

"I think Butler is wrong and is stirring up a lot of unnecessary trouble," Holloran said in St. Louis.

Sign on door of marriage license bureau: "Out to lunch. Think it over."

Castro Blasts U.S. For Harboring Foe

Havana (UPI)—The United States deserves to be hailed before the Organization of American States on charges of interfering with the internal affairs of Cuba, an angry premier Fidel Castro said this weekend.

Havana (P)—Members of the Cuban cabinet said Sunday they have been informed that 4 assassins are en route from the U.S. to kill Prime Minister Fidel Castro, his brother Raul and 4 cabinet ministers.

Navy Mothers President From Fremont

Grand Island, Neb. (P)—Dolly Sukstorf of Fremont was elected commander of the Nebraska Navy Mothers Sunday as the group wound up its two-day convention.

She succeeds Alberta McFadden of Omaha.

Other officers named include: Thelma Russell of McCook, first vice commander; Lena Lamphere of Omaha, second vice commander; Leona Jacobs of Fremont, adjutant; Fairy Dell Nitzel of Grand Island, finance officer; Irene Kellogg of Hastings, chaplain, and Erma Van Ostrand of York, judge advocate.

Elected matrons at arms were Jessie Hutchins of North Platte and Lola Lingeman of Grand Island. Color bearers are Lucille Hardy and Jennie Tutt, both of Alliance.

Trustees elected include Opal Casper of McCook, Velma Hepp of Grand Island and Juanita Kohl of Hastings. Elected to the auditing committee were Genevieve Hays of Plattsmouth, Helen Larimer of Omaha and Caroline Wisner of Hastings.

Red Rails Improve

Moscow (P)—About 13,000 miles of trunk railway lines in the Soviet Union have been electrified, the official news agency Tass reports.

Castro based his criticism on the U.S. decision to give political asylum to former Cuban air force commander Pedro Luis Diaz Lanz and Diaz' appearance in secret before the U.S. Senate internal security subcommittee.

Diaz resigned his air force post after he charged Communists had infiltrated Cuba's armed forces. His successor, Maj. Juan Almeida, immediately ordered his arrest on charges of treason, desertion, robbery and dealing with members of the army of deposed dictator Fulgencio Batista.

Senate sources in Washington said Diaz answered subcommittee questions in a secret session Friday after he was "delivered" to the subcommittee by the Immigration and Naturalization Service. They said he appeared voluntarily to tell about Red infiltration of Castro's armed forces.

A Benedict Arnold

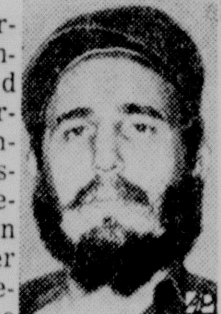

Castro told a "pro-tourism" banquet that the U.S. was guilty of "honoring" and "encouraging" Diaz. A former Castro lieutenant whom Castro called a "deserter" and "traitor" to Cuba.

He said that in the U.S. the name of Benedict Arnold is an ignominious one, yet "the Senate received Cuba's Benedict Arnold."

"There is an unjust conspiracy abroad against the Cuban people," he told 1,300 persons who attended the dinner. "No one has the right to interfere in the affairs of our country."

Wheat Vote Nears In State

...Farmers Expected To OK Quotas On 1960 Crop

By Bill Anderson
Nebraska's 40,000 wheat farmers — many of them winding up their 1959 harvest or getting ready for the cutting — will be asked to vote again this year on whether they want market quotas in effect for next year's crop.

All growers in the 39 commercially-designated wheat states who will harvest more than 15 acres of 1960-crop wheat as grain will be eligible to cast ballots in the July 23 referendum. The only farmers who are not eligible are those who come under the

"feed wheat" exemption. Under the federal wheat law of 1938, the referendum is required any time the national wheat supply is more than 20 above normal. Wheat supplies are now 100% above normal—attesting to the ever-increasing ad-

vances of modern farming. If farmers vote "yes" on this referendum, marketing quotas will be in effect next year and farmers who exceed their wheat acreage allotments will be subject to quota penalties if they market their excess wheat. Growers will also be eligible for price support at the full level of parity. (Present supplies indicate a support of 75% of parity.)

Ike Interest Boost Irks McGinley

Washington—Rep. Don McGinley took sharp exception to President Eisenhower's request for authority to charge higher interest rates in financing the public debt. "Interest is a cost item, the price we pay for the use of money," McGinley explained. "Higher interest increases costs. The federal interest rate is the gauge for all others, and as it rises, so do private state and local interest rates."

"Inflationary" "This means we have to pay out more money to finance the acquisition of goods and services. Therefore, high interest is inflationary." The Fourth District Democrat concluded: "You buy nothing with higher interest rates. It is simply a higher cost to the rancher, the farmer and the small businessman and depresses economic expansion by making capital growth more expensive."

Girl, 15, Admits She Started Fire In Which 7 Died

Elmira, N.Y. (AP) — An attractive, 15-year-old girl told police Sunday she deliberately set a fire that killed her brother and 6 sisters Saturday night. Police said Jane Shusko also admitted setting two minor fires in the family home Friday. But they said she could give no clear reason for her actions. She was held as a juvenile delinquent. Jane is the oldest of 10 children born to Mr. and Mrs. Michael Shusko. She was known to neighbors as a quiet, hard-working girl. The 7 who died ranged in age from 2 to 13 years. They were trapped in second-floor bedrooms.

UAR To Conference
Cairo (AP)—The United Arab Republic will attend a conference of foreign ministers of Independent African States scheduled to be held in Liberia next month, the Middle East News Agency reports. The conference is to discuss a position on the Algerian issue to be put before the UN General Assembly this fall.

Dodge County Nursing Home Fund Is Boosted

Fremont, Neb. (AP)—Proceeds of an interest and inheritance tax funds have boosted Dodge County's contribution to the cost of its new nursing home by nearly \$100,000. Some \$56,000 was added from the interest fund, an accumulation of proceeds on investment of unused county money in U.S. Treasury notes. Another \$36,000 came from the inheritance tax fund.

Pacifists Plan To Sit In Road At Mead Site

Mead, Neb. (UPI) — The Omaha Action pacifists will make another attempt to stop or slow the construction of an Atlas missile launching facility at the Mead Ordnance Plant here Monday. A man and a woman will attempt to halt passage of construction trucks attempting to enter the base by sitting in the road. Saunders County sheriff's officers have said they would be prepared to make arrests for obstructing a public road if necessary.

The pacifists who will attempt the "civil disobedience" are Erica Enzer and John K. White, both of Chicago. They both took part in similar activities last summer at Warren Air Force Base near Cheyenne, Wyo., and served some time in prison in connection with that incident. The Douglas County American Legion unit said it would have a color guard on hand at the missile site and request the pacifists to join the Legionnaires in the pledge of allegiance to the flag.

County Commander George Koch, Valley, said the pacifists were asked on a previous occasion to join in the pledge, but they "turned their backs on us and the flag." **Blue Hill Mail Comes From New Postoffice**
Blue Hill, Neb. (AP) — Blue Hill's mail is being dispatched these days from a new, modern postoffice. The building provides more than 1,000 square feet of work space and includes a mail loading dock, motor-driven postal cancelling machines, a safe, work tables and bank of delivery mail boxes.

Belgian Team On Nebraska Wheat Tour

A team of 7 wheat specialists from Belgium will tour Nebraska July 17-21, stopping in 9 Nebraska cities to study spots of interest in the U.S. wheat industry. The group, touring the country under the sponsorship of the regional Great Plains Wheat Market Development Assn., will stop in Hebron, Hastings, Grand Island, Lincoln, Shelby, David City, Columbus, Fremont and Omaha. They will leave Omaha for Chicago by plane on July 21. Tour manager will be Carl Allam, assistant administrator of the Kansas Wheat Commission in Hutchinson. Included in the tour will be Prof. Edward E. A. Maes of Brussels, Pierre d'Andrimont of Ghent, Albert Blero of Brussels, Rene A. V. Depret of Louvain, J. E. Lefebvre, Maurice LeGrain of Clatelineau, and Paul Mertens of Clatelineau.

Star Bullfighter Injured In Goring
Tijuana, Mexico (AP)—Mataador Luis Procuna, idol of millions of bull fight fans throughout Mexico and Latin America, was seriously gored Sunday. A crowd of about 9,500, largest in the history of the Tijuana ring, saw Procuna's first bull charge him from behind, then lift him high into the air on its horns. The bull, and 850-pounder, spun him around before other matadors could distract it. Procuna, suffering from wounds in his left thigh and buttocks, staggered to the fence of the ring, then sagged and collapsed. He was rushed to the infirmary. Ring officials described Procuna's condition as satisfactory.

Rev. Vogt To Minister New Church
The Rev. Robert Vogt was installed as pastor of the Mennonite Brethren Church in services Sunday evening. The Rev. Mr. Vogt will serve the congregation of the newly formed Capitol Avenue Mennonite Brethren. The congregation was organized to include the Evangelical Covenant Church at 20th and G. Officiating at the installation service was the Rev. J. F. Froese of Minneapolis, chairman of the denomination's board of home missions. The Rev. Mr. Vogt, his wife and their 3 children will live at 2013 G.

Fremont Elevator To Start 360,000 Bushel Expansion
Fremont, Neb. (AP) — The Fremont Cattle and Meat Company plans to start immediately construction of a 360,000 bushel storage addition, raising its total storage facilities to one million bushels. Manager Harry E. Wysel said the 27 new hexagon shaped bins will be located just south of the present storage area. The new bins, he explained, will permit storage of some wheat and will give space for more public storage of soybeans.

Ground Broken For New Church
Ground breaking ceremonies for St. John's Catholic Church and School took place 3 p.m. Sunday. Pictured are Father Benno of St. Patrick's Church and Bishop James V. Casey. The church and school, which serves 235 families, will be ready for occupancy by the first of 1960. Parish priest at St. John's Church is Msgr. M. W. Helmann.

\$100,000 Could Put Wheels Under New State Industry
An investment of less than \$100,000 in Nebraska would start the wheels rolling on a new industry with a potential of adding millions to the state's economy. This statement by University of Nebraska officials came at meetings called at North Platte and McCook to discuss a proposed program for development of vegetable crops for processing in Nebraska. Dr. J. O. Young, chairman of the University's Department of Horticulture and Forestry, predicted that "if Nebraska should capture 10% of the vegetable processing business in the United States, it would have an additional industry with an annual sales volume in the neighborhood of 100 million dollars."

3 Phase Approach
A canning crops committee appointed last year by Dean W. V. Lambert of the College of Agriculture has proposed a 3-phase approach to the problem. Phase 1—Plots will be established at a number of locations in west, southwest, central, south, and northeast Nebraska. These districts have irrigated areas which show early promise for vegetable crops. Phase 1 would be set up initially for five years. Financial support of \$22,500 annually is needed for personnel, equipment and operating expenses. Phase 2—A program of basic research aimed at eliminating obstacles, making full use of Nebraska's advantages, and increasing efficiency of production and utilization.

Grasshoppers Menace Late Planted Crops

Late crops in parts of central and western Nebraska face damage from grasshoppers unless controls are applied soon, a U.S. Department of Agriculture expert said here. Jerry Bell, assistant plant pest control supervisor for the USDA, stationed at the University of Nebraska, said heavy populations of 'hoppers are present in field margins, fence rows, and idle land. Migration of the rapidly-maturing insects from these areas and newly-harvested small grain fields spells trouble for late-planted corn, milo and other crops, Bell said.

The area of chief danger at present takes in all or parts of Buffalo, Sherman, Greeley, Howard, Valley and Custer counties. In this area particularly, grasshoppers have moved into alfalfa fields. Local concern is shown by the fact that 150 farmers turned out for a meeting in Greeley County. Bell commented. While it is probably too late in the season for an organized campaign in central Nebraska, farmers are undertaking control measures individually or through custom control operators.

Asthma Formula Prescribed Most By Doctors—Available Now Without Prescription

Stops Attacks in Minutes... Relief Lasts for Hours!
New York, N.Y. (Special)—The asthma formula prescribed more than any other by doctors for their private patients is now available to asthma sufferers without prescription. Medical tests proved this formula stops asthma attacks in minutes and gives hours of freedom from recurrence of painful asthma spasms. This formula is so effective that it is the physicians' leading asthma prescription—so safe that now it can be sold—without prescription—in tiny tablets called Primatene®.

Ground breaking ceremonies for St. John's Catholic Church and School took place 3 p.m. Sunday. Pictured are Father Benno of St. Patrick's Church and Bishop James V. Casey. The church and school, which serves 235 families, will be ready for occupancy by the first of 1960. Parish priest at St. John's Church is Msgr. M. W. Helmann.

\$100,000 Could Put Wheels Under New State Industry

An investment of less than \$100,000 in Nebraska would start the wheels rolling on a new industry with a potential of adding millions to the state's economy. This statement by University of Nebraska officials came at meetings called at North Platte and McCook to discuss a proposed program for development of vegetable crops for processing in Nebraska.

Dr. J. O. Young, chairman of the University's Department of Horticulture and Forestry, predicted that "if Nebraska should capture 10% of the vegetable processing business in the United States, it would have an additional industry with an annual sales volume in the neighborhood of 100 million dollars."

3 Phase Approach
A canning crops committee appointed last year by Dean W. V. Lambert of the College of Agriculture has proposed a 3-phase approach to the problem. Phase 1—Plots will be established at a number of locations in west, southwest, central, south, and northeast Nebraska. These districts have irrigated areas which show early promise for vegetable crops. Phase 1 would be set up initially for five years. Financial support of \$22,500 annually is needed for personnel, equipment and operating expenses.

Phase 2—A program of basic research aimed at eliminating obstacles, making full use of Nebraska's advantages, and increasing efficiency of production and utilization.

Phase 3—A detailed study of Nebraska's climate, (and its effect on vegetables), and publication of a bulletin showing the potential of the state for canning crop production and processing. This phase would require \$12,500 annually.

Phase 4—A program of basic research aimed at eliminating obstacles, making full use of Nebraska's advantages, and increasing efficiency of production and utilization.

Phase 5—A program of basic research aimed at eliminating obstacles, making full use of Nebraska's advantages, and increasing efficiency of production and utilization.

Phase 6—A program of basic research aimed at eliminating obstacles, making full use of Nebraska's advantages, and increasing efficiency of production and utilization.

Phase 7—A program of basic research aimed at eliminating obstacles, making full use of Nebraska's advantages, and increasing efficiency of production and utilization.

Phase 8—A program of basic research aimed at eliminating obstacles, making full use of Nebraska's advantages, and increasing efficiency of production and utilization.

Phase 9—A program of basic research aimed at eliminating obstacles, making full use of Nebraska's advantages, and increasing efficiency of production and utilization.

Phase 10—A program of basic research aimed at eliminating obstacles, making full use of Nebraska's advantages, and increasing efficiency of production and utilization.

Phase 11—A program of basic research aimed at eliminating obstacles, making full use of Nebraska's advantages, and increasing efficiency of production and utilization.

Grasshoppers Menace Late Planted Crops

Late crops in parts of central and western Nebraska face damage from grasshoppers unless controls are applied soon, a U.S. Department of Agriculture expert said here. Jerry Bell, assistant plant pest control supervisor for the USDA, stationed at the University of Nebraska, said heavy populations of 'hoppers are present in field margins, fence rows, and idle land. Migration of the rapidly-maturing insects from these areas and newly-harvested small grain fields spells trouble for late-planted corn, milo and other crops, Bell said.

The area of chief danger at present takes in all or parts of Buffalo, Sherman, Greeley, Howard, Valley and Custer counties. In this area particularly, grasshoppers have moved into alfalfa fields. Local concern is shown by the fact that 150 farmers turned out for a meeting in Greeley County. Bell commented. While it is probably too late in the season for an organized campaign in central Nebraska, farmers are undertaking control measures individually or through custom control operators.

Crippled Jet's Pilot Says Runway Confusion Presented Greatest Danger

New York (UPI)—The pilot who safely landed a crippled Pan-American World Airways jetliner carrying 113 persons Sunday after circling Idlewild Airport for 4 hours charged that the biggest menace of his ordeal was the confusion on the ground.

Police and fire officials joined Capt. Edward Sommers in bitter complaints about "chaos and confusion" on the runway where the Boeing 707 finally landed with two of its 10 wheels missing.

There also were complaints about the thousands of curiosity seekers who flocked to the airport, jamming highways so that emergency fire equip-

ment could not get through to the scene. Sommers, undismayed by his experience, was at the controls of a replacement plane that flew to London Sunday morning with 94 of the passengers who were aboard his plane Saturday night. The others said they would take later planes.

Roman Holiday
Chief of Detectives James Leggett, acting chief inspector of the New York City police department, charged that the Sunday-night thrill seekers created "a Roman holiday" of the drama-packed ordeal of the drama-packed ordeal of the 102 passengers and 11 crew members aboard the plane.

Fire Commissioner Edward Cavanagh said confusion at the airport was so bad that his men would have had a difficult time fighting a fire, if the plane had burst into flames on landing.

Feared Fire
Sommers, 44-year-old grandfather and veteran of 20 years with Pan American, said the possibility of a fire was his biggest fear from the moment the control tower told him he had lost two wheels on takeoff from London until he finally landed safely.

"There were too many people out there on the runway," Sommers said. "It was a menace."

"They were out on the runway while we were getting low on fuel. If the rescue equipment had been needed, it could not have been put to full use because of the people milling on the runway."

Burned Up Fuel
After learning he had lost the wheels, Sommers circled the airport to burn up as much of his 94,000 pounds of kerosene fuel as he could, to minimize the fire hazard. He had 15,000 pounds when he landed, he said.

The passengers, including movie producer-director Otto Preminger and actor Lawrence Harvey, were calm throughout the crisis and the stewards served them dinners to keep them occupied.

TROUBLED PASSENGER

Silent-movie star Mary Pickford listens to the woes of 6-year-old Jane Kurzawa, who became separated from her parents on arriving in New York aboard the ocean liner Constitution. Jane and Miss Pickford were fellow passengers on the trip from Europe.

Heights Methodist Celebrates 67th Anniversary, New Organ Sunday

Sunday was a busy day for members of the Lincoln Heights Methodist Church.

The day marked homecoming for former members of the congregation, coming from California, Illinois, Missouri and outstate Nebraska to attend services marking the church's 67th anniversary.

A new organ, financed by memorials to former members, was introduced at services Sunday.

Addressing the congregation at an afternoon service was the Rev. Adrian Edgar of McCook, a former pastor of the church and now chairman of the Governor's Youth Committee.

Also sharing in the church's anniversary services were the Rev. Gene Beye of Grand Is-

43 Youths Held

Singapore (P)—Predawn raids on secret society hideouts by more than 100 detectives Sunday resulted in the arrest of 43 teenage gangsters here. Police said the gangs were ordered because armed robberies, holdups and other crimes have increased since a younger generation of thugs assumed leadership of secret societies after the older leaders were jailed.

Churchyard Gunman Kills 1, Wounds 3

Tulsa, Okla. (P)—A half dozen pistol shots shattered the Sunday morning stillness in front of the Tulsa Baptist Temple. When the excitement subsided one church-goer was dead and 3 others wounded.

A young traffic officer, D. L. Harris, 23, captured the berserk gunman after a chase through the screaming crowd and parked cars.

J. R. Swarb, 34, an angry 5 foot 2 gunman, gave up after being barred from a Sunday school by two men who held the door from the inside.

Harris hustled Swarb to jail where he told officers he had meant to kill Kenneth Starnes, 33, the husband of his divorced wife. Instead he killed his ex-wife's mother, Mrs. Viola M. Bridges, 39, critically wounded Starnes, and shot his former wife in the leg.

Also injured in the leg by a stray bullet was Mrs. Cornelia Bragg, 58-year-old wife of the U.S. Commissioner in Tulsa.

Police said Swarb asserted he would have killed the minister of the church, the Rev. Clifford Clark, "if I had seen him." Swarb, operator of a self-service laundry, was reportedly angry with the pastor because he had given church approval for Mrs. Swarb to remarry.

Reds Visit Baghdad

London (P)—A Soviet delegation left Moscow Sunday to attend Baghdad celebrations marking the Iraqi uprising which took place a year ago.

BEST ENGINES!

one of 7 Big Bests Chevy gives you over any car in its field

You've got more to go on than our say-so: Every motor magazine has given Chevy's standard passenger car and Corvete V8's unstinted praise. SPORTS CARS ILLUSTRATED says it this way: "... surely the most wonderfully responsive engine available today at any price." And if you want the thrift of a six, you still get the best of it in a Chevy.

BEST ECONOMY

No doubt about this: a pair of Chevy sixes with Powerglide came in first and second in their class in this year's Mobilgas Economy Run—getting the best mileage of any full-size car, 22.38 miles per gallon.

BEST BRAKES

Not only bigger, but built with bonded linings for up to 66% longer life. Just to prove what's what, Chevy out-stopped both of the "other two" in a NASCAR*-conducted test of repeated stops from highway speeds.

*National Association for Stock Car Advancement and Research

BEST RIDE

A few minutes behind the wheel will leave no doubt about this. MOTOR TREND magazine sums it up this way: "... the smoothest, most quiet, softest riding car in its price class."

BEST TRADE-IN

Check the figures in any N.A.D.A.* Guide Book. You'll find that Chevy used car prices last year averaged up to \$128 higher than comparable models of the "other two."

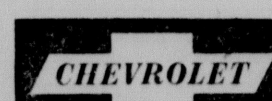

*National Automobile Dealers Association

BEST ROOM

Official dimensions reported to the Automobile Manufacturers Association make it clear. Chevy's front seat hip room, for example, is up to 5.9 inches wider than comparable cars.

BEST STYLE

It's the only car of the leading low-priced 3 that's unmistakably modern in every line. "In its price class," says POPULAR SCIENCE magazine, "a new high in daring styling."

NO WONDER MORE PEOPLE ARE BUYING CHEVROLETS IN '59 THAN ANY OTHER CAR!

6 Argentine Navy Officers Arrested

Buenos Aires (P)—Six high-ranking naval officers have been placed under arrest but released to their homes under military supervision.

Some observers here saw this as a new flare-up in the government crisis that was

believed settled last week when rebellious army officers surrendered to authorities.

The naval officers were arrested after formally demanding the resignation of the secretary of the navy, Rear Adm. Adolfo Estvez.

ADVERTISMENT

Now Many Wear FALSE TEETH

With More Comfort

FASTTEETH, a pleasant alkaline (non-acid) powder, holds false teeth more firmly to eat and talk in more comfort. Just sprinkle a little FASTTEETH on your plates. No gummy, goopy, pasty taste or feeling. Checks "plate odor" (denture breath). Get FASTTEETH at any drug counter.

Kishi In London

London (P)—Japanese Prime Minister Nobusuke Kishi arrived by plane Sunday for an official visit. Engine trouble had delayed the flight for several hours at Anchorage, Alaska.

YOU'D NEVER KNOW I HAD PSORIASIS

If Psoriasis crusts and scales make you hesitate to appear in a bathing suit, discover what hundreds of thousands of Sirol users have found... that the external lesions of this disgusting skin disease tend to disappear upon application of Sirol. If lesions recur, light applications will help control them. Does not stain clothing or bed linen. Coming Up In The World

By WILLIAM O. DOBLER

The front door bell and the bay window have been a boon to social conditions of the tenement dweller. The early tenements never had private entrances. When the individual began to build his own house, he had a door bell and a private entrance, even though the family lived on the floor above him. He also has a bay window on his house, and everything has to be in keeping with that bay window—better furnishings and belongings of all types.

The U.S. Department of Labor has prepared a study of the changing habits of Americans which opens with the above quotation, contained in Labor Department testimony before a congressional commission in 1901. From a quick glance, the study appears to consist mainly of a statistical and factual report on the economic history of the United States. But just as the front door bell and bay window were signs in 1901 of the changing status of the average American, so are the patio and two-stall garage an indication of what is happening today.

These signs are merely a refinement of the transformation that started near the turn of the 20th century. The interesting part of the study and of today's conditions is what they indicate for the future. In 1900 about three-eighths of all dwellings were owner-occupied but the figure now is more than three-fifths.

Without doubt, this figure will continue to rise as more and more Americans leave the renter market. Among those who fail to leave will be many who merely do not want to but who are still living on a high plane of existence.

The front door bell and the bay window represented a growth on the part of Americans in the over-all wealth of the nation. It represented more independence, higher salaries, fewer working hours and better education. It represented, also, more comfort and convenience such as modern plumbing and heating and mechanized equipment in the home.

Exercise In Inconsequence

As most people expected, last week's clash with the law by a group of self-styled pacifists which has been cluttering up the Mead missile site resulted in no lasting impression among some of the more ardent pacifists.

A few days later they were back at the Mead location meditating on the wrongs of prudent self-defense, and one shinned over the fence contrary to the directive of law, and now the court has had to deal with him again.

It can be said of this particular group that thus far it is a meditative group and not an activist group and, therefore, the work schedule at Mead is going on without impairment.

It is the constitutional privilege of all Americans to feel deeply in their hearts any way their minds or lack of the same see

Not everyone today has a two-stall garage, even though some who don't still have a second car parked at the curb. Nor does every family have a patio but the number that do is impressive and those who don't still share in the kind of life the patio stands for. They still manage a lot of outdoor barbecues and picnics.

Considering the human element, you might say, the American standard of living has progressed about as far as it can. A certain amount of unemployment is believed by some to be inescapable and there is a limit to the extent to which the working man can share in the capital wealth of the nation.

Perhaps these observations are true, to a degree, but there are no signs that we have reached the point where unemployment still cannot be reduced and where the working man still cannot partake of a greater share of the wealth of the land. As a matter of fact, if we had reached this stage, there would be no threat of a steel strike.

There would be no threat because the steel workers would already have reached the ultimate in achievement of a way and standard of living. There is, in fact, a great deal which can still be

sought for the average American. His work week is short but will undoubtedly grow shorter. He eats well today but will be eating better tomorrow. He travels some today but will be traveling farther and more often tomorrow. His children may be obtaining four years of college training today but will be averaging six years tomorrow.

Where he has a life expectancy of perhaps 50 or 55 years, he will enjoy a 60-to-65-year expectancy tomorrow. His four-season wardrobe today will become broken down into six or seven varieties. All of us, of course, are aware of the progress of our nation in the past 10 years. These things are not news but it is good that we keep our history in mind from time to time so our perspective in current events does not become distorted or our ambitions too conservative.

fit and it is also their constitutional privilege to express whatever sense or nonsense as comes to mind without fear of the damages. And for that reason there are not many who resent this group practicing pacifist yogi within rock throwing distance of a missile pad. But the constitution which guarantees freedom of thought is the same constitution which goes further to say that the freedom exhausts itself when the exercise of it infringes on the constitutional rights and privileges of other citizens.

This is something the meditators could profitably meditate upon while they are meditating upon the great state we would all be in if Russia continued its untrammelled preparation of nuclear rockets with us in mind, while we meditated dreamily upon non-defense and non-survival.

A Boom Is Threatened

Business is so good in Nebraska that there is "almost a threat of a boom," opines the University of Nebraska's Department of Business Research.

In its July bulletin the department carried statistics to show that April this year exceeded April of last year by 14.7 per cent in terms of physical business volume. While Nebraska was making such an advance the nation as a whole averaged an 8.9 per cent increase.

Incidentally, retail sales in May topped the same month last year by 4.8 per cent, indicating that the April achievement was no mere flash in the pan.

It is comforting news to note that business is good and getting better. A state economy that enjoys such a "growing boy" characteristic is the kind to have.

Indubitably Nebraska's good showing stems from two important factors, (1) an

agrarian economy seldom experiences the dramatic gains and losses which typify an industrial economy, but rather encourages stability, (2) Nebraska is reaping the rewards of an exceptionally abundant 1958 crop year. What farm products lack in price they make up abundantly in volume. This is satisfying to Nebraska but it cannot be gainsaid that the regional benefit heightened the national problem of farm surpluses. It is a reminder, too, that a more wholesome farm price-cost ratio would have more comforting connotations for the future, for super abundance productionwise is not destined to be a permanent common denominator.

All of which is to say that what is currently good is highly acceptable, but it should not obscure the fact that agriculture is sick and still urgently needs a great deal of fixing.

Fort Kearny Gets Priority

State Game Commission Director Mel Steen has declared of three of the state's historic military fort sites old Fort Kearny will receive development priority. The other two are Fort Robinson and Fort Atkinson.

Although restorative or exploratory work has been done both at Fort Robinson and Fort Atkinson, Steen pointed out that Fort Kearny recommends itself for more imminent development for three reasons, (1) it was the most important fort in early day Nebraska, (2) the state owns the site and, (3) the Fort Kearny Memorial Association is the more advanced in the accumulation of restoration funds.

A few miles south of the present Platte Valley city of Kearney, the old fort was a bulwark against central Nebraska Indian depredations as well as a vital institution during the nation's great westward trek during the early and mid 18 hundreds. Only slightly less distinguished was old Fort Robinson in the extreme northwest part of Nebraska.

But most venerable of all is Fort Atkin-

son whose ruins rest on a Missouri River bluff not many miles north of Omaha near the present town of Fort Calhoun. Fort Atkinson, originally Missouri Cantonment, was established in 1819 as a counter measure to British fur trapping encroachment and to cope with British agitation among the Indians against the United States. It was the garrison of the historic Sixth regiment of Revolutionary and War of 1812 fame, and its officers and commanders, Atkinson, Riley, Leavenworth, Kearny and others provided the names for numerous later central west military bases of long and colorful history. Fort Atkinson was in business 16 years after the Louisiana Purchase and seven years after the outset of the War of 1812.

Nebraska is not as recent in American history as many would believe.

These three forts are of major historical significance. It is comforting to learn that old Fort Kearny is to be developed, and that interest is awakening in the restoration of the other ancient fort sites. They will be the gateway to a better public grasp of that hazy, long gone period we call the pre-territorial days which were not days of an historic vacuum, but rather were times when great issues were resolved.

Crooks Cost Money

When we look at the cost of higher salaries for judges or better police pay, we often raise our eyebrows. But these things and many more are helping prevent an even greater growth in crime than the high experienced in 1958. Is the money spent on probation programs, social programs, law-enforcement, juvenile work, etc. really worth the chips? You can decide this for yourself on the basis of J. Edgar Hoover's estimate that the total cost of crime is now estimated to be \$20,000,000,000 a year—nearly one-third of the cost of running the entire federal government for a year.

"I Can't Get Over It—And He's A Fellow Texan, Too"

DREW PEARSON

War Clouds Gather Home And Abroad

WASHINGTON—Secretary of State Herter sits down once again with Foreign Minister Gromyko under anything but favorable auspices. Here are the instructions and diplomatic conversations which make it so:

1. Eisenhower has told Herter to permit no prolonged conversations or—as they would say in the Senate—filibusters. If no agreement is in sight within two weeks, Herter has been instructed to come home.

2. Gromyko has already served notice to the same end. He has sent word that he wants the foreign ministers meeting to be short and sweet, so he can get back to Moscow by July 22 to welcome Vice President Nixon. That leaves only 10 days to negotiate.

3. Eisenhower received a confidential report from CIA Director Allen Dulles, just before Herter left, that the United States and Russia could be closer to war than at any time since the Bolshevik Revolution. This warning was based on the belief that Premier Khrushchev is in a reckless mood and has decided the allies can be bluffed out of Berlin.

Eisenhower, listening to the Dulles report, could not believe Khrushchev would be foolish enough to risk a showdown that could plunge the world into war. Perhaps that's why Eisenhower has

resisted advice by the joint chiefs of staff and Secretary Herter to take military precautions in advance. Herter wants the Strategic Air Command put on a night-and-day alert, and perhaps the national guard called out.

These are some of the unhappy off-stage events as the foreign ministers meet again in Geneva.

As the steel negotiators spar for a final showdown, forces very high up in the administration are lined up secretly on opposite sides. President Eisenhower is on the side of the steel industry. Vice President Nixon, though he can't say so and won't, is leaning toward the steelworkers.

This was one inside reason why Dave McDonald, head of the United Steelworkers, made his dramatic flight to Pittsburgh last week to try to get Nixon to push the negotiations off deadlock.

Nixon would like to do so. However, he faces powerful opposition very close to Ike himself in the person of former Secretary of the Treasury George Humphrey, now president of National Steel, and Jim Black, vice-president of Republic Steel. They don't want Ike to budge one inch in favor of labor, believe the round of wage increases must be broken and that the steel industry is the place to break it.

MARQUIS CHILDS

Rayburn Will Shoot For New Labor Bill

WASHINGTON—Sam Rayburn is 77 years old. Serving his eighth full term as speaker of the House, he has begun to hear the thunder of discontent on the left.

It is generated by those who are dissatisfied with the record of the Congress. With Democratic National Chairman Paul Butler, they feel that the big majorities of last November should have been translated into progressive legislation.

They see that even when Rayburn and Senate Leader Lyndon Johnson try to cut the cloth to the Eisenhower budget-balancing pattern, as in the housing bill, the President nevertheless uses his veto power. Increasingly embittered, many Democrats believe their leaders have fallen into a trap deliberately set by the Republicans on the spending issue.

But Rayburn's loyal lieutenants, and they include some of the ablest men in the House, insist that the critics are ignoring two major factors. First is the enormous complexity of legislation designed to solve contemporary problems. Second, the more serious, is the political fragmentation within the two parties as they are mirrored in the House.

Shortly the Rayburn leadership will try to pass a labor reform bill. This will be a very tough test indeed of whether the fragments can be put together to get a majority for measure that goes a reasonable distance toward reform.

Dating from the simon pure days when supposedly government had no right to interfere with the freedom of the trade unions, John L.

Lewis is also opposed to any legislation. Through his complete and unchallenged hold on the United Mine Workers, he controls from 12 to 13 votes in the House.

On the other side of the fence, organized industry is demanding a far sterner measure than the Kennedy-Ervin bill passed by the Senate. Republicans would be far from unhappy if the session ends with failure to do anything about the flagrant abuses exposed and exposed again. This would be another shame pinned on the Democratic donkey.

If a measure does come out of the rules committee and if it does pass, it will be a compromise, conceding something to the unions on the question of membership and something to management in tighter restraints on the worst rackets. With his profound knowledge of the makeup of the House, and with the aid of such skilled lieutenants as Rep. Richard Bolling of Missouri, Rayburn may pull it off.

More recently Rayburn has lived with the reality of a minority leader—Charles Halleck of Indiana—who is ruthless and ambitious. Skillfully Halleck has played up to the southern Democrats, using them, as in the bill to alter the Supreme Court, for his own ends. Nothing would please him more than to have two Democratic parties fall out violently over civil rights.

This is the most obvious reason why it has been decided in the Rayburn command that no civil rights bill can clear the House.

DR. I. M. LEVITT

Wonders Of The Universe

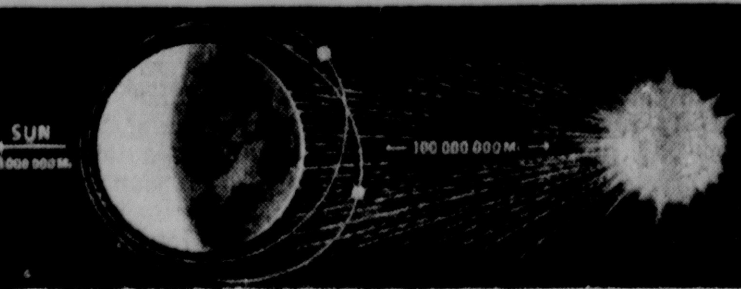

Scientists will team up the two most significant achievements of the century to put Einstein's theory of relativity to another test.

The proposal, advanced by Dr. Edward Teller, calls for the combination of the hydrogen bomb and a rocket vehicle. Although Dr. Teller did not originate the plan, his sponsorship increases its stature enormously.

The reasoning behind this concept is that on the detonation of the hydrogen bomb almost the entire electromagnetic spectrum is produced to fan out from the explosion point.

There are Gamma rays, X rays, ultraviolet radiation and the visible region of the spectrum. On the other side of the visible spectrum we get the infrared, radar and radio waves. These radiations are produced at the instant the bomb is detonated and must be recorded to detect variations in their arrival times at the earth. This means that the bomb must be set off at a tremendous distance from the earth. Only in that fashion can the radiations travel far enough to interact with materials in space.

The theory of relativity holds that all radiations must travel at the same speed—the speed of light—186,300 miles a second. If a blast took place a long way off and if any segment of the radiation spectrum did not arrive at the same time as the others, it would indicate that the law was faulty and invalid.

The shot will be fired about 100 million miles from the earth, slightly more than the average distance of the earth from the sun. At this distance, if the bomb were triggered by a radio signal it would take about nine minutes for the explosion signal to reach the bomb and another nine minutes for the bomb burst to be seen from the earth.

Once the bomb has been set off, a complex of instruments, many of them in satellites above the absorbing layers of the earth's atmosphere, would record the radiations coming to us. If the arrival times are not simultaneous or within the error of the instrumentation, Einstein's theory is at fault.

There is one type of electromagnetic radiation which Dr. Teller does not expect to respond as do the other radiations. Radar waves emanating from the blast would not necessarily travel with the speed of light. This is not due to a flaw in the theory, but to the ions—the tiny charged particles—in the long path between the bomb blast and ourselves. These particles will slow the radar waves.

This retardation may even

provide a new method for probing the density of these particles in space. It will help define how perfect a vacuum exists between the planets.

The project, now only in the talking stage, cannot be consummated until a tremendous volume of research is completed.

To begin, we must develop our guidance systems so changes can be made during flights and we can place this object in a precise trajectory to reach the desired point in space. It is obvious that the bomb cannot be too near the sun or the light of the bomb will be dimmed by the sunlight. Thus, it must be detonated to be seen from the night side of the earth.

It is also necessary to improve our radio transmitters and receivers so that a radio signal after a trip of 100 million miles can still trigger the mechanism.

The project will require the wholehearted co-operation of scientists over half the world. Space scientists believe this will be given freely, even by the Soviets, because of the tremendous significance of the tests for all mankind.

Your Four Cents Worth

QUESTION OF THE WEEK: WILL THE COLD SHOULDER TREATMENT AND ARGUMENT GIVEN SOVIET DEPUTY PREMIER FROL KOZLOV HELP OR HINDER RELATIONSHIPS BETWEEN EAST AND WEST?

The purpose of this column is to inform and sometimes entertain by presenting a cross-section of the viewpoint of the general public and to give them an opportunity to express their own views. Contributors need no professional writing skill as grammatical or spelling errors are corrected prior to publication. To help stimulate a greater interest in current events or to provide discussion of interesting areas of life, The Star submits today a question on which it invites future reader comment. Suggested questions from readers are welcomed.

Wrong Measure

McCook, Neb.

How can we keep the laws within God's Ten Commandments?

At the present time we can't because the people won't. We are inclined to think, too much, on the terms of "how does this appear to the people," instead of "how does this appear to God."

We each and every one have a duty to perform and if we, as individuals, insist on pushing our responsibilities on to some one else's shoulders, what can we expect?

Apparently the people have forgotten that they are the foundation of our laws. The future depends on how well each individual performs his duty to his God and his country. Analyze yourself for so much depends on you. Remember, the most complicated things are made up of a number of little simple things.

DORTHEY WRIGHT

House Calls

Lincoln, Neb.

Lincoln is certainly getting to be a great town. I must say. One can't even get a doctor to come to the home any more to see what's wrong with a sick child. They don't have time or, as I would say it, they don't want to be bothered.

Maybe some of us are slow paying our doctors but we're at least sure of doing it. They make a fortune and then don't seem to care if the whole town dies. What an attitude that is!

S. L. McDONALD

City Expenses

Lincoln, Neb.

Obviously we are experiencing that calm which exists before the annual budget is tossed into the laps of the local taxpayers. Already our city real estate taxes have more than doubled in the last 10 years, notwithstanding the millions in new property valuations added to the tax rolls.

Our new multi-million-dollar city auditorium is not only failing to pay its current operating expenses but will need further funds from the city taxpayers. Ten years hence, when the new has worn off, what will be the total of this annual deficit?

Also, there is the Airport Authority created very recently without voter approval. How much will this misadventure cost the local taxpayers before they decide to throw in the sponge?

LEO N. BARTUNEK

Racial Bans

Lincoln, Neb.

I read with disgust the article on Page 10 of the Friday Star which mentioned that Dr. Ralph Bunche had been refused membership in

OFF THE RECORD

By Ed. Reed

On the Fourth of July, 1959, we were invited to meet Frol R. Kozlov, the Russian Deputy Premier. It was a memorable meeting. The Russ and I. And I shall probably hark back to it for a long time.

Any way, Mr. Kozlov told the State Department he would like to see an American home. The State Department chose the home of Mr. Cyril Magnin, the San Francisco merchant prince. Reception, 4 to 6 p.m. R. S. V. P.

So at 4 p.m. we were in the fashionable suburb of Hillsborough. Driving round and round the block. So we should not arrive on time and give the Russians a bad impression.

It was a most elegant affair and should serve to

straighten out a lot of misinformation.

I imagine the Kozlovs get Pravda flung on the front porch at home. If you remember, Pravda recently ran a front page picture titled: "Typical American Home."

It was a shaky spot with a raggedy child in front. Like a rundown share cropper's thing in a road show of "God's Little Acre."

We were certainly glad the State Department chose Mr. Magnin's scatter. Because it shows that you don't have to have a front yard full of old tin cans. And that we energetic share croppers are doing better than Pravda suspects.

Well, this affair took place in the front yard. (We checked our coats in the garage, which is used for voting on Election Day.) I wore my Sunday suit.

The ground rules said Mr. Kozlov was to have a typical American day. And not be bothered by the press. (What does the State Department know about a typical American day? It is not a typical day unless you are being rousted around by reporters.)

In any case, I behaved like a typical American millionaire. I did not put my press card in my hat. I did not even keep my hat on. Which shows you how hard we worked to give Mr. Kozlov a good impression.

In the meantime, we sauntered around (with 300 other guests) and cut up touches with the millionaires we recognized.

The millionaire I recognized first was a detective from the robbery detail. (He wore his coat unbuttoned so the bulge of the gun wouldn't show in his pistol pocket.)

Said to him: "Some party!"

He said: "Some classy joint!"

We then cornered Mr. Bill Flynn, the Newsweek chief.

Said to Bill: "Which one is Kozlov?"

He said: "He's upstairs sleeping."

It seems that BEFORE we typical millionaires arrived, there was a barbecue. And Mr. Kozlov had to go up and sleep off the chow. Just like any of social barbequers. It made me feel much closer to the Russians. If we could just barbecue more, we could solve a lot of problems at the charcoal summit.

We then walked over by the swimming pool and met Madame Nasiddinova, a sort of Russian Clare Boothe Luce. I told her I expected to visit Russia. Her interpreter said:

"Madame hopes you will write a book about it."

That is a GOOD idea. I expect to be in Russia about a week. Everybody else who visits Russia for a week writes a book.

Mr. Kozlov then appeared looking fresh and chipper. He wore a gray suit and sort of Congress gaiters—you know, shoes with the elastic sides.

It was a most successful party. And no doubt gave Kozlov something to think about.

Me, too. The main thing I noticed was Mme. Nasiddinova had a fair amount of gold dental work. I always thought

this would be too capitalistic, that Russians had stainless steel teeth.

Now I find stainless steel teeth are NOT typical. Any more than a share cropper's shack in Pravda. And so we all learned a lot. Though for all I know, maybe gold dental work is what you wear to parties. Just like my Sunday suit.

Work May Start Soon—Wauneta Catholic Church

Wauneta, Neb. — Work is expected to begin this week on a new church for St. John's Parish in Wauneta.

The church, 27x82 ft., will be built of masonry and heavy timber. It will seat 135.

The 4 lots comprising the new site for the church are at the southeast edge of the town on U.S. Highway 6. The old church was damaged by floods, but the new site is on high ground away from the flood danger area. The town is planning to build a park adjoining the church property to the east.

The Catholic Church Extension Society of America is giving \$5,000 to help the parish erect the building. Pastor of the church is Father Clement A. Green, V.F.

MISS CHARLENE ANTHONY

Mr. and Mrs. R. F. Anthony of Sidney are announcing this morning the engagement and approaching marriage of their daughter, Charlene, to Claire D. Johnson, son of Mr. and Mrs. C. F. Johnson of Tilden.

The couple plans to be married on Sunday, August 23, at the First Methodist Church in Sidney.

Miss Anthony attended the

University of Nebraska where she is a member of Alpha Chi Omega Sorority and this past year was a student at San Francisco State College, San Francisco, Calif.

Her fiancé was a June graduate of the University of Nebraska College of Law. He is a member of Delta Theta Phi, law fraternity, and Delta Upsilon.

The Star In Suburbia

COTNER TERRACE

Enjoying the company of their two daughters recently were Mr. and Mrs. Chester A. Way. Coming from Kansas City, Mo. were Mr. and Mrs. Maurice Heman, and from Des Moines, Ia., came Mrs. Melvin Kessler. A family gathering served as the means of catching up on family news.

A new member of the talm powder set in Cotner Terrace is Miss Jane Diann Bergfeld, daughter of Mr. and Mrs. Dale Bergfeld of 3020 No. 68th. Jane Diann was born June 27 at Bryan Memorial Hospital. The paternal grandmother is Mrs. Margaret Bergfeld. The maternal grandparents are Mr. and Mrs. Ernest Hesterberg. Mrs. Bergfeld was Laura Hesterberg. The Bergfelds also have two sons, Randy, 7, and Scott, 5.

NORTHEAST HEIGHTS

Newest young resident in Northeast Heights is Craig Edward Hiney, son of Lt. and Mrs. Erwin Hiney of 6324 Strauss Ct. Craig Edward was born July 3rd at St. Elizabeth's Hospital. Waiting for her brother to arrive home is Cindy Elaine, 2. The grandparents are Mr. and Mrs. Er-

vin Hiney and Mr. and Mrs. Edgar Thorn Jr., all of Beacon, N.Y. Mrs. Hiney was Doris Thorn.

Trout fishing and a trip through the Black Hills were the highlights of a July 4th vacation for Mr. and Mrs. Daryl Irmer and their three children, Cindy, Jeanie, and Douglas. Mr. and Mrs. Irmer and family visited at the home of Mr. Irmer's parents, Mr. and Mrs. Mike Mitchell of Hill City, S.D.

Attending the National Education Association convention in St. Louis, Mo. was Mr. Lawrence E. Mason. Mr. Mason returned recently after spending several days in St. Louis. He was one of a group of Lincoln teachers chosen to attend the NEA convention.

Mention of the Masons reminds us that Norman Jean and Mary Lou Mason left for Axtell, where they will be the guests of their uncle and aunt, Mr. and Mrs. Rod Larson, and their cousins, Kenneth and Roger.

Stopping in Lincoln while en route to Los Angeles, Calif. were Mrs. Anna Gosch and her daughter Myrna, of Napier. They stayed at the home of Mrs. Gosch's brother-in-law and sister, Mr. and Mrs. George Lebsack Jr. While

in California they will visit friends and relatives.

PERSHING HEIGHTS

Entertaining the members of her pinocle club Thursday evening was Mrs. Leon E. Overbeck.

Mention of Mrs. Overbeck reminds us that Mr. and Mrs. Overbeck entertained at an evening fireworks party at their home July 4th. Couples attending included Mr. and Mrs. Darrell Herman, Mr. and Mrs. O. D. Hulbert, and Mr. and Mrs. Don Leslie.

SOUTH HILLS

Visiting at the home of Mr. and Mrs. Robert White are Mr. and Mrs. Kenneth J. Peters of David City. The Peters are spending a week in Lincoln seeing friends and relatives.

Great Books Group To Meet

The third in the summer series of meetings of the Great Books discussion group will be held Monday evening at the South Street branch library. The group will meet at 7:30 o'clock.

Squadron Has Week-End Party

Officers of the 343rd bomb squadron and their wives had a gala evening Saturday, July 11, when they entertained at a party at the Officers Club.

Honored during the evening were the squadron com-

mander, Col. Joe Disana and Mrs. Disana.

Included among those on hand for the affair were (pictured seated left to right) Col. Thomas Corbin, Com-

mander of the 818th Air Division, Mrs. Garland, Mrs. Corbin, Mrs. Disana, (standing left) Col. William C. Garland, Commander of the 99th Bombardment Wing, and (standing right) Col. Disana.

We Hear That

Announcement has been made of the birth of a son, David Allan, to Sgt. and Mrs. Clifford H. Kuwamoto, at Tripler, U.S. Army Hospital, Honolulu, Hawaii, on June 11. Mr. and Mrs. Clifford Engleman of Lincoln are the paternal grandparents, and Mr. and Mrs. Clarence Douglas of Franklin, Ind., are the maternal grandparents.

★ Lt. Col. and Mrs. Donald E. Simon of Springfield, Va., announce the birth of a daughter, Barbara June. Mrs. Simon is the former Lois Wadlow, daughter of Mrs. Marguerite Ruebel Wadlow, and Cecil E. Wadlow. Mr. and Mrs. Charles Simon are the paternal grandparents.

★ Guests at the home of John W. Brown are Mr. Brown's son-in-law and daughter, Mr. and Mrs. Harry H. Brown of Bettendorf, Ia., and his daughter, Mrs. Melvin A. Elbourn, and her daughter, Judy, of Cedar Rapids, Ia., who arrived on Saturday for a two weeks stay. The visitors also will be the guests of Mrs. Brown's and Mrs. Elbourn's brothers-in-law and sisters Mr. and Mrs. Clifford Hg. Mr. and Mrs. Adolph Hock, Mr. and Mrs. Ralph B. Cooley and Mr. and Mrs. Howard Stroup.

Married At Summer Ceremony

MRS. EDWARD WARREN SANDALL

Candles and arrangements of blue daisies formed the decor for the wedding of Miss Elaine Marie Andrews, daughter of Dr. and Mrs. Lyle V. Andrews of Chadron, formerly of Lincoln, and Edward Warren Sandall, son of Mr. and Mrs. Archie Sandall of Bassett, which took place on Tuesday evening, June 16, at the Methodist Church in Chadron. The 8 o'clock service was solemnized by the Rev. Harold Sandall of Lincoln, assisted by the Rev. Herbert Jackman of Chadron. Mrs. Herbert Jackman played the wedding music, and Alfred Blinde was the vocal soloist.

The attendants, wearing identically styled frocks in two shades of blue, were Mrs. Charles Drescher of Omaha, the matron of honor; and bridesmaids Miss Ingrid Sandall of Lincoln; Miss Rosemary Townsend of Sidney; Mrs. Jack Kelly of Omaha; Mrs. Clifford Dick of Bassett, and Miss

Judith Gains of Huron, S.D., the junior bridesmaid. Miss Marjorie Filbert of Lincoln and Miss Shirley Johnson lighted the candles.

Don Watson of Omaha served as best man, and seating the guests were Gene Hallgrimson of Omaha; Herald Sandall of Cuba; Wesley Sandall, Keith Sandall and Clifford Dick, all of Bassett.

For her wedding the bride chose a gown of silk organza and schiffli embroidery. The embroidery, smoothed over ice-blue taffeta, fashioned the empire bodice which was designed with a portrait neckline and brief sleeves. The embroidery was repeated in applique on the bouffant skirt of organza which was completed with a chapel train. A lace crown, jeweled with pearls and sequins, held to the head her tiered veil of illusion, and she carried a fan of ice-blue lace ornamented with white gardenias, and showered with white rosebuds.

Family Reunion

Mr. and Mrs. John Petersen were host and hostess to their seven children and their grandchildren at a family reunion during the Fourth of July week end.

The festivities began on Saturday with a picnic supper at the farm home of Mr. and Mrs. O. W. Lenz, and on Sunday, Mr. and Mrs. Petersen entertained their family at dinner at the Hotel Cornhusker.

All but two of the couple's 19 grandchildren were present. Attending were Mr. and Mrs. L. A. Hnizda and three children; Miss Mariane Petersen; Mr. and Mrs. C. M. Larson and one of their three children; Mr. and Mrs. Paul Petersen and three children; Mr. and Mrs. J. H. Kalkhorst and four children; Mr. and Mrs. O. W. Lenz and three children; and Mrs. and Mrs. D. V. Wiemers and three children.

B. PW Club

Members of the Lincoln Business and Professional Women's Club met for a tray supper Thursday evening at the University of Nebraska College of Agriculture cafeteria.

A short business meeting was held at which Mrs. Erma Seamark presided.

Dear Abby . . .

Something Figures!

Abigail Van Buren

DEAR ABBY: I am 28 and my husband is 29. We've been married for nine years and have two children. A well-built neighbor girl started coming to our house in her bathing suit. (There's no place to swim within 20 miles of here.) She is 17 and very cute and likes to horse around with my husband. She asks him to drive her to the grocery store which is within walking distance. He jumps at the chance. I don't like the way he looks at her. Am I silly to be jealous? He never gave me cause to worry before. I wish you could tell me what to do. I can't figure it out.

JEALOUS DEAR JEALOUS: A girl who visits in her bathing suit is a cinch to have it well "figured" out. Tell your husband you love him and don't want him "horsing around" with this girl. Inform her that she isn't to come over unless she is fully dressed. Little girls grow up fast, and some men never grow up.

DEAR ABBY: Will you please print something about people who take vacations to visit their relatives? I am a RELATIVE, not a VACATIONER.

My husband's sister comes with her husband and three small children and they stay all summer. She sits around while I do all the work.

All the unemployed relatives come from miles around to see "Sister". I am cooking and cleaning up from 7:00 a.m. until 11:00 p.m.

My husband says I shouldn't complain because he'd do the same for my relatives. He knows he's safe. I have one brother in Formosa. How can I put a stop to these summer vacations?

BEAT DEAR BEAT: You'll never discourage your guests by giving them the Waldorf treatment. Make it a DO-

IT-YOURSELF VACATION: If your sister-in-law doesn't offer to help — ask her to. People who let others impose on them in the name of hospitality deserve the aching back that is sure to follow.

Man vs. Vamp

Fall fashions will make us women look mannish by day, vampish by night.

The mannish look borrows fabrics, hat silhouettes, walking sticks, and the continental silhouette from the men. It shows in costumes which combine a man's smoking jacket or classic three-button jacket with a slim dress.

Another top silhouette is the tunic, which turns up in everything from suit jackets to dinner suits and slim, slinky, evening gowns. Some daytime dresses have half-tunics.

For evening, the siren look takes over. Necklines plunge to the waist in front and back. Other gowns are covered up from wrist to neckline, or combine décolletage with long sleeves. Gowns cling to the figure if slim-cut, or rise to the knees in front if full-skirted.

Fabrics for after-dark range from rich brocades and metallic-embroidered velvets to sari prints and provocative nude silk appliqued with black velvet. Jet beads, sequins, and bugle beads trim or completely cover many dresses.

Furs show up on suits, dresses, coats and ball gowns. Daytime fabrics are simple but rich.

Leather moves into the luxury class for fall.

Designer Samuel Robert, who heads a custom house of leather fashions, trims daytime coats and jackets with mink, beaver, leopard and civet. For evening, he decorates full-length coats and short jackets with white mink, brocades, pearls and rhinestones.

A reversible evening coat, priced at \$375, is made of

CONFIDENTIAL TO "SORRY NOW": next time SWALLOW those angry words. It's much better than having to eat them.

If you have a problem, write to Abigail Van Buren in care of this paper. She will be glad to answer your letter. For a personal reply, enclose a self-addressed envelope.

suede on one side and on the other, one-of-a-kind antique paisley shawls from France. A suede great coat has Canadian lynx cuffs and tuxedo—a facing of fur that runs completely around the collar, down the front to the hem. Price: \$395.

In general, the collection ranges from a \$50 minimum for jackets to \$110 and up for coats. Special orders cost more—a 24-karat gold leaf coat for \$375; a leopard-lined trench coat for \$750; a black suede coat trimmed with natural chinchilla for \$750.

Most expensive item the firm has made was a white leather coat with a golden chinchilla cape collar and tuxedo trim, which sold for more than \$1,000.

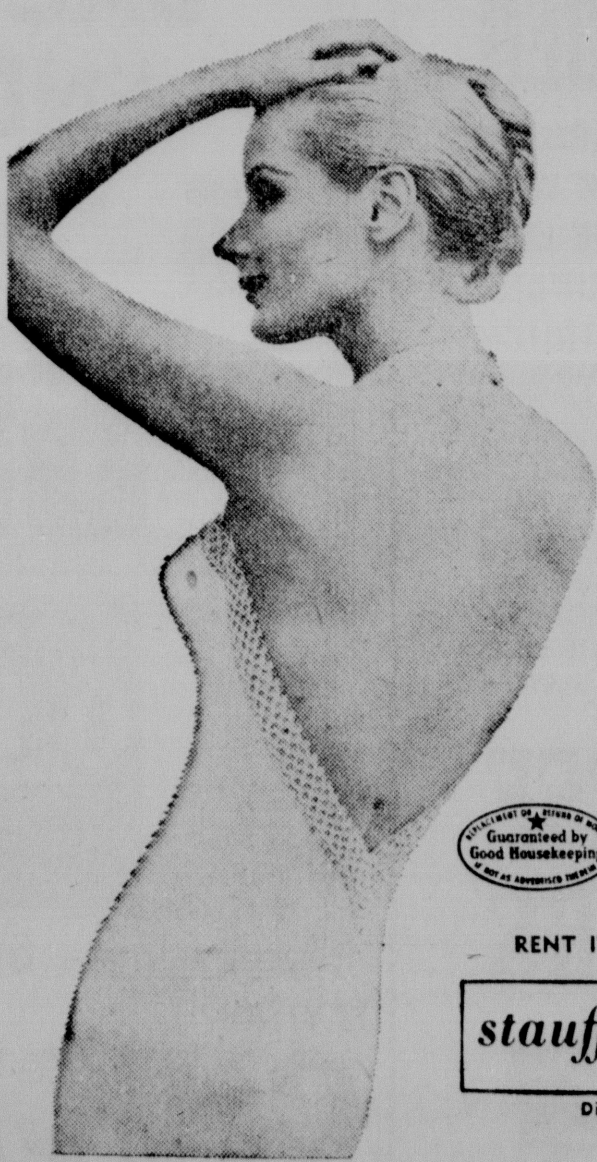

Coats and toppers reverse to bright blanket wool plaids or oversized black and white checks. The linings include hamper, suede and alpaca.

Play suits include a suede Russian tunic with brass side-buttons and with tight, tapered pants, plus a civet-lined ski jacket.

For the first time in six years, suedes are making a comeback, said Robert, who was the first to manufacture leather clothes for year-round wear.

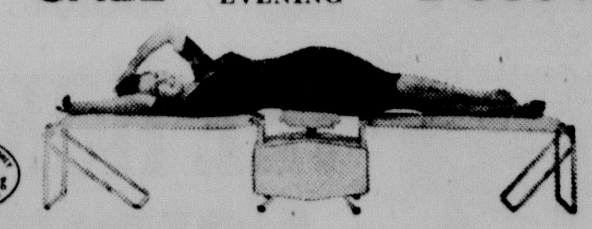

The new suedes are dry-cleanable and spot resistant and come in bright colors instead of the traditional sober tones, he said. The most popular suede color is gold dust, a bit brighter than pumpkin. Pale pink and white are top shades for evening in all types of leathers. Daytime colors are marsh green, clay, frosted pumpkin, blue-jay, blushing oak (red) and bamboo. A new touch—leather in black and white polka dots.

GET SLIM STAY SLIM THIS SUMMER

Your figure takes on a more youthful looking loveliness when you improve your posture and repropotion your body with the STAUFFER HOME REDUCING PLAN of effortless exercise and calorie reduction. Wheat Protein Content May Beat Last 2 Years

... EVEN THOUGH TEST WEIGHT AND YIELDS ARE NOT AS GOOD

Although test weights and yields of the 1959 wheat crop are lower than in recent years, it appears that the protein content may be higher than 1957 or 1958 wheat crops.

Early and limited protein tests are variable, but range from 10 to 16%, reports J. C. Swinbank, Extension agronomist at the University of Nebraska. Protein content above 12% is considered good.

Baking quality of the 1959 wheat also appears to be good based on early tests. Wheat produced in the southwestern

and western parts of Nebraska promises to have the mixing time desired most by the milling trade.

Flour yield from the new

crop will be somewhat below normal because of the lower test weight of the grain, Swinbank reports.

Yields are extremely vari-

able. Some fields have produced 35 bushels of wheat per acre with a test weight of 60 pounds per bushel; other fields posted yields 20 bushels per acre testing 55 to 57 pounds per bushel. Test weights as low as 12 pounds per bushel have been reported.

Harvest Is 80% Over In 5-County Fremont Vicinity

Fremont, Neb. (P)—The harvest is about 80% complete in Dodge, Colfax, Cuming, Saunders and Burt counties and the extension service calls the yield fair to poor.

Barring further rain, the harvest should be completed early this week.

The range of yields in the various counties: Dodge, 1 to 45 bushels per acre; Burt, 10 to 40; Saunders, 5 to 30; Colfax, 15 to 50, and Cuming, 15 to 40.

Drowning Victim's Body Is Recovered

La Platte, Neb. (P)—The body of Philip J. Oibertz, 20, of Omaha, who drowned Saturday night in an unattended sandpit near here, was recovered Sunday.

Cass County sheriff's officers joined those from Sarpy County in dragging the pit. Attempts to locate the body Saturday night had been unsuccessful.

130 No. 13th Stuart Bldg.

Col. William B. Campbell, commander of Offutt Air Force Base, and Col. George S. Wilson, a Strategic Air Command chaplain, flew to York to talk with the family of the late Capt. James Lee Junge.

The 26 year old Air Force veteran of 8 years was killed June 26 in a jet plane crash at Kelly Air Force Base in Texas.

Legion officials had vigorously protested Offutt's failure to provide military representatives at funeral services for Junge at York July 7.

Townpeople Howard A. Harris, York American Legion officer, said

palbearers had to be picked from people attending the funeral of Junge when the Offutt detachment failed to arrive.

Harris said Sunday he "thought the Air Force handled the situation very well," apologizing first to the family by phone and later through the base commander and chaplain.

Harris quoted Campbell as saying the family had accepted Offutt's explanations "graciously."

Firing Squad Offutt customarily provides a firing squad, honor guard or both, depending on what is required, for funerals of military men.

Harris said he understood the Air Force had explained there was "an uprising at Mead and they had to send Air Police so there was no one available for the funeral." The Air Police have dealt with a pacifist demonstration at the Mead missile site.

The captain leaves a widow, Ruth, and a 3 year old daughter, as well as his mother, Mrs. Otto Junge, and his 6 brothers and 3 sisters.

U.S. Missile Lag Increasing, Says Sen. Symington

Washington (AP)—Sen. Stuart Symington (D-Mo.) said Sunday the U.S. is falling still further behind in the missile race with Russia and that the American Army is falling to pieces.

Symington, a frequent critic of administration defense policies, said that while earlier this year military planners figured the Soviets would have

a 3-1 lead in the missile field, the ratio now planned is an "absolute minimum of 6-1."

Symington renewed his plea for unification for the armed forces to eliminate waste.

He said thousands of American troops in Europe have equipment dating back to World War I.

Reappraisal Of Military Said Overdue

Washington (UPI)—Gen. Maxwell D. Taylor, who recently retired as Army chief of staff, said Sunday there has been no overall reappraisal of the nation's defense forces since shortly after President Eisenhower took office in January, 1953.

Taylor said that in 4 years as the Army's top officer he "pressed as hard as I could" for such a reappraisal because he did not believe U.S. military power was strong enough "across the board."

Taylor, who ended a 41-year military career with his retirement June 30, said his failure to get "a thorough reappraisal of national military strategy" was one of the principal reasons he gave up his military career.

GUESS WHO

Yes, that's right—encased within the pillow case is the angry countenance of Louisiana Gov. Earl Long, who donned the makeshift mask to spite newsmen and photographers who swarmed about him as he arrived in Fort Worth on the first leg of his Western vacation.

Gov. Long Eyes Speech To Texas Legislators

Fort Worth (AP)—Gov. Earl Long of Louisiana, his plans for a Western vacation still vague, rested Sunday while awaiting a possible invitation to address the Texas legislature.

The 63-year-old ailing governor talked by phone to the speaker of the Texas House, Waggoner Carr, at Austin, after unsuccessfully trying to reach Gov. Price Daniel.

Long told Carr he will remain in Texas until Wednesday if the legislature wanted to hear him. A resolution inviting Long to address the Texas legislature was introduced in the House last week but was shunted to a committee.

Gov. Long also phoned Dr. Titus Harris, internationally known psychiatrist and head of the clinic at John Sealy Hospital at Galveston, where Long was confined by court order last month.

Long also issued a lengthy apology for his actions during which he pulled a pillow case over his head and cursed newsmen and photographers after his arrival in Texas by plane Saturday night.

Long apologized, too, for an incident in which Lt. Russell Willie of the Louisiana

Tormenting Rectal Itch Stopped In Minutes
Science Finds New Healing Substance That Promptly Stops Itching and Pain of Piles

New York, N. Y. (Special)—One of the most common afflictions is a condition known as "itching piles". It is most embarrassing for the victim during the day and especially aggravating at night.

No matter what you've used without results—here's good news. For the first time, science has found a new healing substance with the astonishing ability to promptly stop the burning itch and pain. It actually shrinks hemorrhoids—without surgery. Medical science has proved this substance produces a remarkably effective rate of healing. Its germ-killing properties also help prevent infection.

In one hemorrhoid case after another "very striking improvement" was reported and verified by doctors' observations. This improvement was maintained in cases where doctors' observations were continued over a period of months! Among these sufferers were a wide variety of hemorrhoid conditions, some of 10 to 20 years' duration.

The secret is this new healing substance (Bio-Dyne)—discovery of a world-famous research institution. This substance is now obtainable in ointment or suppository form known as Preparation H. Ask for Preparation H suppositories (convenient to carry if away from home) or Preparation H ointment with special applicator. Absolute satisfaction guaranteed or money refunded.

College View Presbyterian Has \$35,000 ... For Improvements

More than \$35,000 has been collected by the congregation of College View Presbyterian Church, 46th and Prescott, to be used to increase the size of Christian education facilities and replace or renovate the sanctuary.

At the present time, the education building is a one-story structure. According to the Rev. Dean Hay, pastor of the church, construction of the second floor of the building will have priority.

Recently acquired property at 4635 Prescott will later be made into a parking lot.

It is expected that in the next two months additional funds for the improvement and expansion program will be received.

Patrolman Nabs Escaped Inmates

Two State Reformatory escapees were apprehended Sunday morning in a field 7 miles south and 4 miles west of Lincoln.

They are Robert E. Thompson, 19, of Omaha, and Patrick Velarde, 21, of Denver, Colo. The inmates walked away from work details late Saturday afternoon.

State Safety Patrol Trooper Charles Langoss was credited with the capture.

Thompson, serving a two to 4-year term for burglary, escaped from the institution's poultry farm. Velarde, who disappeared from the license plate factory, is serving an 18-month sentence for forgery.

Music news is covered thoroughly in The Sunday Journal and Star.

Inflation may look too big for you to hold down. But lots of people, working together, can pin inflation to the ground.

There is a way to hold down inflation

You can probably remember when, on week-end shopping, you couldn't lift a five dollar bill could buy. Today, as you know, money doesn't go that far. That's inflation.

And it isn't only in one department or store. Inflation makes everything cost more.

Even fatter pay checks have a tough time keeping up with rising prices. Just since the end of the war, this "cruellest tax of all" has cut 32¢ from the dollar.

One of the reasons your dollar is worth less and less is excessive government spending. Some people urge their representatives to spend and spend even when it means borrowing from the future. But these people overlook that spending tomorrow's money today is merely postponing payment and adding to inflation.

This is where you can play an important part. You can tell the government what you want instead of leaving the field to pressure groups who never fail to tell the government what they want. You can also spend your family income with an eye to getting your money's worth and saving something, too.

HOW YOU CAN HELP STOP INFLATION

1. Write to your senators and congressmen and tell them you favor tightening up on expenditures which can be reduced, postponed or eliminated altogether. Many of them believe exactly as you do, but if they hear mainly from pressure groups who demand more spending, it is hard for them to hold the line against inflation. That is why you and others need to make it clear that you expect the government to live within its income.
2. Your state and local representatives also may appreciate being reminded that you favor

tightening up on state and local expenditures.

A good way to keep yourself fully informed on how your representatives are voting is through your newspaper.

3. Whenever you shop, don't be afraid to be price-conscious. You have a right to receive full value for the money you spend.

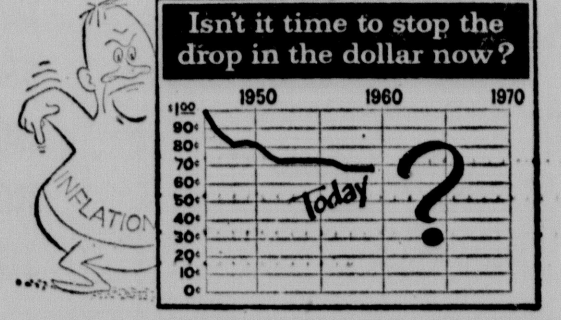

4. When you buy wisely, you will find it easier to build a nest egg which will give your family that extra protection you want them to have. And as many of us add to our nest eggs, we will be providing the capital for more jobs and greater opportunity for all.

A strong and prosperous America depends on a strong and stable dollar.

Brought to you in the interest of every American who is concerned with preserving the value of the dollar.

Inflation is "the cruellest tax of all"

Mathews Supplies Offense

... Braves Top SF

Milwaukee (P) — Eddie Mathews drove in all 4 runs with a home run and a sacrifice fly and Lew Burdette scattered 7 hits to give the Milwaukee Braves a 4-2 victory over the San Francisco Giants Sunday.

A crowd of 40,953, largest at County Stadium since opening day, saw the 3rd place Braves move within a game and a half of the pace-setting Giants in the National League race.

A two-run homer by Jackie Brandt in the 5th inning was all that cost Burdette his 3rd shutout. Brandt came up again in the 9th with the tying runs on base and two out, but grounded into a force out for the game-ending out.

Burdette did not walk a man in winning his 12th game of the year after 3 straight defeats. The victory was his 3rd over the Giants in 4 starts this season and gave him a lifetime record of 22-8 against them. His victim was Jack Sanford, first of 3 San Francisco pitchers, who yielded all 4 Milwaukee runs in his 5th innings of toil. Stu Miller and Rookie Eddie Fisher pitched scoreless ball the rest of the way.

Three of the 4 Milwaukee runs were unearned, the result of Sanfords' own error on Burdette's sacrifice bunt in the 3rd. Johnny O'Brien had singled with one out and when Sanford fumbled the bunt, Braves were on first and second. After Bill Bruton finished what should have been the 3rd out, Mathews hit his 26th home run of the season over the right field fence.

POINT BLANK

By Don Bryant

Sports Editor, The Star

The Readers Speak

Starting with Mrs. W. F. Somersher of Lincoln—
 "... In a way I feel that the Chiefs do deserve a little better coverage, like pictures. ... But I do agree with you that that is not the reason for the lack of attendance at the ball park. So I'm going to say what I think it is:

"We have a lower class of ball and an increase in price. ... You can say what you want, but that is wrong. ... Also, having to pay for 5-year-olds is wrong. A lot of people can't go to a ball game if they don't bring their children. ... Tell me how much a 5-year-old is going to get out of a ball game. ... I am a very avid baseball fan and I sure do not want it to leave Lincoln. But mark my words, it is going to be if something isn't changed—and it better be the prices.

"Forget about those special nights. ... People don't go to a ball park to see a clown—they go to see a good ball game, but not when the price is too high. ... That's my say and, I might add, it is the feeling of a lot of other people. I am hoping that (the prices) it can be changed—if not it's good-by baseball."

Comment: Ticket prices at Sherman Field are a sore point with many fans, to be sure. Some are genuinely unable to afford the pastime, others use it as an excuse. I think it was poor psychology to drop a classification and charge the same, or increase, prices. But the directors, recognizing that the club has endured red ink for many years, felt baseball prices hadn't kept pace with other costs in this era, and that present admission prices were the only way to continue baseball in Lincoln. Sorry, but with so many book tickets already sold, the Chiefs couldn't cut prices in the middle of the season.

'Do Something'

"Another Baseball Fan" of Lincoln pens — "It is indeed gratifying to pick up the morning paper and find pictures of various Lincoln Chiefs players. Thanks!

"... You've been around long enough to know that when you're doing a good job no one says anything about it. Slip just once (July 5) and you'll hear about it. In my opinion, 'Baseball Fans' letter was a compliment. We are used to excellent coverage of our Lincoln Chiefs and when we don't get it, we squawk.

"Baseball Fan," and a few more of us are perhaps a bit edgy as we do so want organized baseball to remain in Lincoln. However, the alarm clock rang some time ago. It's time we get up and do something about it!"

Comment: Thank you for vote of confidence. Efforts to inform fans about the Chiefs' will be continued. As for "doing something," there is only one course available. Either Lincolinites start visiting Sherman Field in greater numbers, or professional baseball here is finished, period. The directors, through a lot of hard work and personal expense, have given Lincoln the opportunity to see good baseball. If attendance continues to sag, it is an indication that there is no longer enough interest in the game to merit the struggle.

Ambrose Alexander of Lincoln, drops note on All Star game — "The Big Game was the best I ever saw. Pittsburgh is a great town. Sure would like to see them win the National since they are really a baseball town."

Comment: So would I, Ambrose.

Giants' Ed Bressoud ... out in first half of double play.

Rocky Paces Tribe's Split

Cleveland (P) — The Cleveland Indians roared back from behind on a 3-run homer by Rocky Colavito in the 6th inning here Sunday and went on to defeat the Detroit Tigers 8-4 in the second game of a doubleheader.

The Tigers won the opener 6-2.

A throng of 54,727 fans pushed the Indians' home attendance to 669,685 as compared to 663,805 for all of last season.

The victory in the nightcap went to Jim Perry, who relieved starter Al Cioetto in the 3rd inning. It was Perry's 4th win in 5 decisions.

Tom Morgan, lifted after Colavito's 3-run blast, was the loser. His record is now 1-4.

The Tigers jumped on Cioetto, making his first start of the season, for 3 runs in the first inning via a walk, consecutive doubles by Harvey Kuenn and Charlie Maxwell, a sacrifice and a sacrifice fly. They added another in the 3rd on two walks and a double by Red Wilson

before Cioetto was lifted in favor of Perry.

Cleveland scored its first two runs in the 4th on a lead-off homer by Minnie Minoso and a home run by Colavito into the left field stands, his 27th of the year.

The Indians went ahead in the 6th on Colavito's 28th homer, a blast over the center field fence. It followed singles by Minoso and Tito Francona.

Shrine Game Ducat Sales Begin Today

Tickets go on sale today for the Nebraska High School Shrine Bowl Football Game. The contest, first in Nebraska sports history, is scheduled for Omaha's Municipal Stadium on Aug. 22. It will match two squads of high school players who have completed their prep athletic careers.

There will be no reserved seats for the tilt, a night affair. Tickets will be on sale in these cities:

Omaha, Lincoln, Fremont, Blair, Fairbury, York, Beatrice, Auburn, Falls City, Norfolk, Hastings, Grand Island, Columbus, Kearney, Lexington, Ord, Broken Bow, Alliance, Scottsbluff, Ogallala, Cozad, McCook, Holdrege, Alma.

Lincoln ticket headquarters are Lawlor's Sporting Goods, 1118 O Street; Gerry's Sport Shop, 1333 P Street; Hal J. Bowers' Terminal Drug Store, 947 O Street; Citizens State Bank, 48th and Huntington; Allen's Alley, 1410 South Street; and Kings Drive-In, 3935 South Street.

There are some seats in an "honor section" reserved for persons who have donated \$50 or more to the Shrine Crippled Children Hospitals. Those who made \$50 donations were sent 4 complimentary tickets to the game.

BRITON WINNER IN GRAND PRIX

Rouen, France (P) — Stirling Moss of Great Britain, driving a Cooper-Borgward, won the Grand Prix of Rouen auto race for Formula Two sports cars here Sunday.

Earlier Moss drove a 2-liter Maserati to victory in the Course de Lamare Deboutteville race. His time for the 35-lap, 229 kilometer (142.29 miles) race for 2-liter limit sports cars was 1:29:40.9 for an average speed of 153.2 kilometers (95.75 miles per hour).

Moss completed the 35-lap Grand Prix race in 1:28:05.8, an average speed of 155.9 kilometers (97.44 miles per hour).

Harry Schell, an American living in Paris, was second. Driving a Cooper Climax, he finished in 1:28:36.1.

Whack Texas Leaguers

Mexico City (P)—The Mexican League swamped the Texas League 9-3 Sunday in the first Pan American Assn. All-Star contest.

House Is Out In Game Of Tag

Kansas City Athletics catcher Frank House, left, is tagged out decisively by Chicago White Sox second baseman Nellie Fox during the second inning of the first

Chisox-A's battle Sunday. House was trapped off the keystone when teammate Joe DeMaestri grounded to the Sox' Dick Donovan, and Donovan threw to Fox.

Final Round 63 Gives Souchak Western Open

Pittsburgh (P)—Husky Mike Souchak, former Duke football star, rallied with a brilliant 65 on the final round and grabbed the Western Open golf championship Sunday with a 72-hole total of 272, one stroke better than Arnold Palmer of Ligonier, Pa. Palmer missed a 2-foot putt he had to make on the final green to tie.

The big fellow from Grossinger, N. Y., started the day 5 strokes behind Palmer and Joe Campbell of Knoxville, Tenn.

A gallery of some 5,000 banked around the 18th green gasped in dismay as Palmer blew his chance. Big Mike, a native of Berwick, Pa., caught up at the 11th hole of the final round with a birdie 4 to Palmer's par.

Souchak hit the 220-yard

Faulty Brave Defense Helps Lincoln Divide

Lincoln Star Special
 Cedar Rapids, Ia. — Lincoln batters belted out 11 base hits and took advantage of 6 errors by a slipping Cedar Rapids defense here Sunday night while salvaging a 5-3 win in the second game of a Three-I League day-night doubleheader.

Cedar Rapids won the opener 4-2 as Canadian Don MacLeod wove a tight 3-hitter.

Lincoln garnered only one earned run over the course of

two complete games, but the Braves' shoddy support ruined righthander Bob Cleboski's try for a sweep in the nightcap.

The hosts stayed even with their guests at 3-3 for 4 innings, then fell back for good when the Chiefs' Jim Lynn picked on a Cleboski fastball and rammed it over the center field wall with teammate Deacon Jones on the basepaths.

That wrapped up the

game's scoring as Lincoln righthander Ron Teunis picked up his second straight win on a 7-hitter.

Most of Teunis' early difficulties evolved from the go-pier ball. He served a pair, one to the Braves' Corky Withrow in the second and another to Ray Reed in the 4th.

The latter knotted the score until Lynn unwound.

Lincoln's other scoring came in the early innings

during intermittent comedies of errors. Jones was safe at the plate in the second when Cedar Rapids catcher Merritt Ranew dropped the ball during a tag.

With two down in the next frame, the Chiefs' Don Gordon circled the bases on a single, a throwing error and Jones' single.

Pug Williamson's double, Chuck Lehman's single and a muffed pop fly by Mack Jones of the hosts accounted for the 3rd Lincoln run in the 4th.

MacLeod, the leading percentage pitcher in the league with an 8-0 record, lost his shut out in the 9-inning opener on two walks, an error and Gordon's sacrifice fly in the final frame.

His ration of 3 singles was dealt to Don Bacon in the first, to catcher Gene Martin in the 3rd and to Mike Hersherberger in the 4th.

The sturdy moundsman had ample support from the bats of Braves 3rd baseman Dick Selinger and shortstop Dennis Menke.

Ex-Western League umpire Max Stone made his first appearance as a Three-I League arbiter, working the bases in the opener and behind the plate in the nightcap.

The two teams collide here again tonight in the 3rd of a 4-game series.

WILHELM BEAM

Late Hit By Bell Tops LA

Cincinnati (P) — Gus Bell picked on the first pitch of reliever Roger Craig in the 9th inning Sunday and singled in the winning run in the Cincinnati Reds' 4-3 victory over Los Angeles.

It was the first victory in 4 games under new manager Fred Hutchinson. And it cut off a win streak of the second place Dodgers at 5 games.

Moon-faced hurler Bob Purkey picked up his 6th victory, going all the way with a 5-hit-ter.

The Reds got a rally going in the 9th when second baseman Johnny Temple drew a two-out walk. When Vada Pinson singled, putting Temple on 3rd, Craig was sent to the mound in relief. Then came Bell's clincher.

Most of the game was a pitching struggle between Purkey and Larry Sherry.

Philadelphia (P)—Earl Averill's 3-run homer helped Chicago to a 7-6 victory over Philadelphia Saturday in the opener of a doubleheader, but the Phillies took the nightcap 4-1 behind the 5 hit pitching of Ray Semproch.

Ruben Gomez (1-7) held the Cubs hitless until the 4th inning of the opener when they batted out 6 hits for all their 7 runs. Averill's homer (5) onto the left field roof came off reliever Jack Meyer.

Semproch (3-6), winning his first game since April, gave up an unearned run in the first, then held the Cubs in check. He gave up only one extra base hit, a harmless double to Dale Long in the 6th.

The Phillies scored a 11 their second game runs in the first inning, 3 of them unearned as the result of an error by Ernie Banks. He let

Sand Greens Title To Mrs. Gilliland

Hastings (P) — Mrs. Mrs. Gilliland of Kimball emerged from a nick-and-tuck race Sunday to win her 3rd straight Nebraska women's sand greens golf tournament.

Mrs. Gilliland, Mrs. Bob McMasters of Superior and Sookie Madgett of Hastings were tied in the championship round until the final 9 holes.

Mrs. Gilliland's 27-hole total was 128, one better than Mrs. McMasters' 129 and two under Miss Madgett's 130.

Mary Jo Ciemancie of Ord finished 4th with 131 and Pede Hasler of Fullerton was 5th with 139.

Other flight winners, based on 18 holes, were: Marge Smith of Hastings, 93; Pat Anderson of Holdrege, (109); Mary Walley of Hastings, 120 and Dorothy McArthur of Hastings, 133.

Woman Tortured by Agonizing ITCH
"I nearly itched to death for 7 1/2 years. Then I found a new wonder cure. Now I'm happy," writes Mrs. D. Ward. Here is blessed relief from tortures of vaginal itch, rectal itch, chafing, rash and eczema with an amazing new scientific formula called LANCANE. This fast-acting, stainless medicated cream kills harmful bacteria germs while it soothes raw, irritated and inflamed skin tissue. Stops scratching—no sleepless nights. Don't suffer another minute. Get LANCANE today at all drug stores.

WHITE SOX TAKE PAIR FROM KC

Chicago (P) — Rookie Jim McAnany slugged a bases-loaded triple in the first game and duplicated his feat in the nightcap while leading the Chicago White Sox to 5-3 and 9-7 victories over Kansas City here Sunday.

The double triumph pulled the Sox within one game of the league-leading Cleveland Indians.

McAnany, a 20-year-old native of Los Angeles, capped a 5-run spurge in the first inning of the opener with a drive off the left-centerfield wall. His base-clearing smash in the second game came in the 5th inning and helped the Sox build a much-needed 8-0 lead.

Chicago kayoted starter Bud Daley with the 5-run first inning but had to rely on fine relief pitching by Ray Moore and Gerry Staley to win the opener.

The Sox didn't waste any time in the second game. They sent home 4 runs in the first inning via a two-run single by Lollar, followed by Al Smith's 7th homer. Lollar

Lincoln Netters Thump 3rd City

Grand Island's Bob McDole opened with a two-set 6-3, 6-2 triumph over Barry Jackman of the Lincoln Tennis Club Sunday and salvaged the 3rd city's only decision during an 8-1 shellacking.

The Lincolnettes owned a 5-1 advantage in singles and swept all 3 double matches. LTC travels to Sioux City, Ia. July 19.

Stifles Nats On 4 Blows

Washington (P) — Hoyt Wilhelm finally got back on the beam Sunday after 4 straight losses and stifled the slugging Washington Senators with 4 singles as Baltimore won 5-1.

The veteran knuckleballer breezed to his 10th victory of the season, aided by home runs by Billy Gardner and Joe Taylor. Wilhelm had reeled off 9 victories in a row before he lost his touch and dropped the next 4.

The Senators managed to put singles together in the 3rd inning for their only run. Jim Lemon got a two-out single in the 4th and after that Wilhelm set them down in order until Len Green's pinch single in the 8th inning.

Gardner's 6th home run of the season broke a 1-1 tie in the 5th inning and that was all Wilhelm needed. Gene Woodling with two singles and a double, and Willie Tasby's triple and two singles just helped make his job easier.

The losing pitcher was Russ Kemmerer. Hal Woodeshick and Hal Griggs also saw action on the mound for the Senators.

Couple Embarks On Bomb-Shelter Honeymoon

Miami, Fla. (AP)—A pair of newlyweds waved goodbye to pickets, police, photographers and onlookers Sunday and descended into an underground bomb shelter where they propose to spend a two weeks honeymoon.

Melvin Mininson, 28, of Miami and the former Maria Rodriguez, 27, of Tampa were wed at ground level by former Miami Beach Mayor Kenneth Oka as a prelude to their stunt in collaboration with manufacturers of the 2½-ton concrete and steel cubicle, 10 feet below.

Five women pickets, who identified themselves as members of the Greater Miami Committee for a Sane Nuclear Policy, marched up and down bearing signs that read "Men Who Make Moons Can Make Peace."

One picket, Mrs. Thalia Stern, told newsmen the committee viewed the bomb shelter honeymoon as a "promotion for financial gain that prepares people psychologically for war."

Coleman Wages, Miami director, voiced disapproval of the pickets. "They're a bunch of radicals," he said. "I think this test is a wonderful thing."

Dade County Sheriff Tom Kelly—who inspected the shelter—agreed with Wages.

Not For Fun Alone

"They're making missiles 24 hours a day 7 days a week," Kelly said. "They don't make them to celebrate Chinese New Year."

A sheriff's deputy affixed a wax seal to the hatch of the bomb shelter after the bridal couple disappeared into it.

Mr. and Mrs. Mininson were promised a second two weeks honeymoon to Jamaica, B.W.I., by Bomb Shelters Inc., if they spend two weeks in the 8-by-10-by-6-foot shelter equipped with furnishings, food, telephone and electricity.

Somewhat Warm

Sunday night Mininson talked via the shelter's phone with newsmen. He said the temperature within was 89 degrees.

"We're in our shorts and I don't think the heat is going to bother us," Mininson said.

HE LIKES TO THINK HE'S THE MOST VALUABLE MAN IN THE COMPANY---

U.S. Headed For Socialism, Kozlov Says

New York (AP)—Frol Romanovich Kozlov said Sunday that after seeing much of the U.S. in a cross-continent tour he firmly believes this country is headed for a political system like that of the Soviet Union.

The Soviet deputy first premier, considered by some a possible successor of Premier Nikita Khrushchev, exuded confidence at a news conference winding up his two weeks of wining and dining across the nation. About half of the 50-minute conference was taken up with Kozlov's own prepared statement.

Kozlov was asked whether he agreed with Khrushchev's prediction that the grandchildren of this American generation would live under Socialism.

He replied that he had seen much of the U.S. and had some good impressions of it, including the impression that its people were against war. He noted that the system any country adopts should be considered the internal business of its people.

"But I do believe in the new society," he said, "and I certainly do believe in what was said by Mr. Khrushchev."

Kozlov's U.S. visit ended with a tour of the U.N. building. He was scheduled to take off early Monday morning on a Soviet jet transport for Moscow.

Other features of the morning program will include reports on sheep experiments at the University of Nebraska Agricultural Experiment Station by Prof. M. A. Alexander.

Morris Hemstrom, Extension livestock specialist at the College, will report on a new ewe distribution program developed by livestock interests in cooperation with the Agricultural Extension Service.

Marketing of wool will be discussed by a representative of Midwest Wool Cooperative at Kansas City, Mo.

Wilber Pauley of Harvard will discuss his farm flock of 300 ewes emphasizing performance and management practices he likes.

Speakers at the windup session included Dr. E. H. Nordstrom of Lincoln, a federal veterinarian, and Dr. I. A. Schipper of North Dakota State College.

Research reports during the weekend convention ranged from studies of brain disease in calves, newest methods of Caesarean operation to symptoms of a digestive sickness in cattle.

The winter convention will be held in Lincoln.

Dodge Assessor Reports Property Value Up 5.9%

Fremont, Neb. (AP)—The annual abstract of assessment prepared by Dodge County Assessor Russell Pierce shows actual valuation of county property up 5.9% over last year.

Pierce listed total actual (market) valuation of all property in the county at \$309,945,675, an increase of \$17,269,760 over the total reported a year ago.

In terms of assessed valuation for tax purposes—35% of actual value—county tax levies will be computed on a value of \$108,480,986, or \$6,044,426 more than a year ago.

The biggest increase in valuation this year is on intangible property on which the actual value is up \$6,700,160 over last year.

Honduras Revolt Quickly Crushed

Washington (AP)—The U.S. embassy in Honduras reported Sunday that a revolt broke out against the government of President Ramon Villeda Morales but was quickly crushed.

The State Department said it was informed heavy firing broke out Sunday morning around police headquarters in the city of Tegucigalpa in the Central American republic.

Travelers arriving in Nicaragua Sunday night reported that more than 100 persons were killed in Tegucigalpa. They said police, cadets and troops at the San Francisco barracks participated in the revolt.

The embassy report identified the leader of the revolt as former army chief of staff Armando Velasquez, who led a short-lived revolution earlier this year. He was believed at that time to have taken refuge in Costa Rica.

Under terms of the agreement that ended Sunday's uprising, the embassy said, Velasquez will be permitted to leave Honduras again.

Brooks In Lincoln After 5 Day Leave

Gov. Ralph Brooks was back in Lincoln Sunday after a 5-day journey to Atlantic City, N.J., and Duluth, Minn. The governor was on hand for the installation of Dr. Clayton F. Andrews of Lincoln as Imperial Potentate at the Shrine convention in Atlantic City.

He spoke at dedication ceremonies for the St. Lawrence Seaway at Duluth.

Brooks told his Minnesota audience that the St. Lawrence Seaway had brought Nebraskans 1,500 miles closer to the Atlantic.

"The addition of the ocean going freighter to our existing transportation facilities opens an entirely new chapter in the agricultural, industrial and economic advancement of Nebraska," Brooks said.

"The outdoor cooking, packing all the equipment on their backs over steep mountain trails and fishing for trout in cold mountain streams all add up to an unforgettable adventure," Brendle said.

Bill Scott of Hickman is expedition leader.

Others: Paul Olson, assistant advisor; Edward Black, Jim Butcher, Larry May, Jerry Butcher and Brendle, senior Scouts; Andy Taube, Air Scout.

WILBERT

"Well that ends my obsession for westerns!"

Border Police Halt 2 Youths, Find \$71,529

San Diego, Calif. (AP)—Two Canadian youths were arrested as they attempted to cross the border into Mexico Sunday with \$71,529 that police said one of them admitted stealing from an Ottawa bank Friday.

Officers said that Richard Boudreau, 19, told them that the Toronto Dominion Bank won't miss the money until it opens for business Monday. He carried it away from the bank in a suit box, he said.

Boudreau and Gerald LeClerc, also 19, were booked on suspicion of grand theft and held for Ottawa authorities.

The two wore big cowboy hats which they had picked up in Texas. Officers said that Boudreau, employed as a teller at the bank, gave this account:

"Got New Suit" He told fellow employees when he left at noon Friday for lunch that he was going to pick up a new suit. When he returned he had an empty suit box. And when the time came to close for the day, he put the cash from his teller's drawer into the box.

He walked out and LeClerc joined him. They made their way to New York City and took an airplane to Texas. They bought Western-type clothing there and continued on to San Diego.

They were stopped by the San Diego police border patrol, one of whose functions is to check for unescorted juveniles attempting to cross into Tijuana.

When the two were unable to give evidence of their age, officers checked their baggage and found the money.

'Operation Moo' To Aid Orphans

Los Angeles (UPI)—A planeload of calves will be flown to Seoul, Korea, in an Air Force C-130 cargo craft Monday in an operation to provide an orphanage with its own dairy herd.

The idea was that of Col. Dean Hess, famed "Flying Parson" of World War II and one of the founders of the home for war orphans in Seoul during the Korean War.

Heart Assn. Grants \$7,965 For NU Research Projects

The University of Nebraska Board of Regents received notice that the Nebraska Heart Association has granted a total of \$7,965 for support of 7 University research projects in Lincoln.

Faculty members who will conduct the research projects are: Dr. George A. Young, professor of animal hygiene; Dr. L. C. Payne, associate professor of chemistry; Dr. Robert B. Johnston, associate professor of chemistry; Dr. Targut Sarpkaya, assistant professor of engineering mechanics; Dr. Warren Engelhard, associate professor of bacteriology; Dr. Robert M. Wootton, associate professor of zoology; and Dr. John E. Shannon, assistant professor of physiology.

All of the grants are for \$1,000 each, except for the project directed by Dr. Engelhard, which is for \$1,965. The heart association also approved five new grants, one renewal and awarded one block grant for research requests by the University of Nebraska College of Medicine staff.

The 5 new grants include \$1,000 each to George W. Loomis, M.D., assistant professor of Internal Medicine; T. F. Hubbard, M.D., associate professor of Internal Medicine; Carol Angle, M.D., assistant professor of pediatrics and resident-intern training.

Police said Robert Beuche and Abderaman Maami, 22, an Algerian, wrestled for possession of a cement shovel and Beuche fell from a window. Maami was charged with involuntary homicide.

Fight For Shovel Fatal To Worker

Bourges, France (AP)—A construction worker was killed by a 74-foot fall from the fifth floor of a new apartment building after a violent argument with a fellow worker.

Police said Robert Beuche and Abderaman Maami, 22, an Algerian, wrestled for possession of a cement shovel and Beuche fell from a window. Maami was charged with involuntary homicide.

Dirt-Slide Victim Is Recovering

Omaha (UPI)—Jason Emerson, 5, was recovering in a hospital here Sunday after a harrowing experience.

The youngster was trapped in a dirt slide at a house excavation in Carter Lake.

However, two housewives, Mrs. Joe Michaud and Mrs. L. R. Roberts, a mailman, Howard E. Bird, and a construction worker, Thomas F. Stephens, saved him.

Humphrey Questions Exchange Of A-Data

Washington (UPI) — Sen. Hubert H. Humphrey (D-Minn.) said Sunday that proposed exchanges of U.S. atomic materials and weapons secrets with NATO allies might conflict with this country's efforts to ward international disarmament.

Humphrey, chairman of the Senate subcommittee, said the Foreign Relations Committee should study the "serious and profound" implications of the atomic exchange proposals. He also called for full Senate debate on them.

Humphrey asked specifically whether the sharing arrangements goes "further down the road" toward a NATO defense keyed to atomic weapons and whether they might "jeopardize our efforts to make progress on the control and reduction of armaments."

"Can it not be argued that the proposed agreements are in conflict with an important aspect of our foreign policy,

namely the prevention of the proliferation of nuclear weapons among many countries?" Humphrey asked. "Or has the United States abandoned its policy of trying to restrict the membership of the nuclear club?"

He said the Foreign Relations Committee should obtain a complete understanding of what the pacts mean in terms of U.S. relations with other countries.

In this connection, he urged joint consultation between the Foreign Relations Committee and the joint congressional Atomic Energy Committee, which is considering the 7 pending agreements. He said

Thone Seen As Cinch To Head State's GOP

Charles Thone appeared a cinch Sunday night to be elected state chairman of the Republican Party next Wednesday at a special party gathering in Grand Island.

Opposition, if any, will be slight, party insiders predicted.

No effort to transform the unpaid party post into a salaried office is expected.

Thone will succeed State Chairman Richard E. Spelts Jr., who is resigning the position he has held since 1956.

Spelts has brushed aside all efforts aimed at keeping him in the chairmanship.

GOP Executive Secretary Jack Schuetz of Lincoln is understood to have squelched a move to place his name in nomination.

No other names have entered recent speculation.

Many Expected

A large percentage of the party's 86-member, governing state central committee is expected to be on hand for the party gathering.

In addition, top GOP officeholders, former officeholders and influential party leaders will gather for a noon luncheon honoring members of the central committee.

Spelts and his wife will host the affair.

The gathering is expected to touch off significant political probing on behalf of a bevy of would-be GOP candidates in 1960.

Chief interest will center on the Republican gubernatorial nomination, which threatens to erupt into a free-for-all, gang primary.

Dirksen Says He'd Veto Bill Backing TVA

Washington (UPI)—Senate Republican Leader Everett M. Dirksen (Ill.) recommended Sunday that President Eisenhower fire another veto at the Democratic 86th Congress.

Dirksen said in an interview that he would feel "absolutely compelled" to veto the pending Tennessee Valley Authority self-financing bill because it sidesteps regular budgetary control.

"If I were President," said Dirksen, "I'd reach for the biggest blue pencil there was and say 'This is not for me.'"

Four Already

Eisenhower already has vetoed 4 important Democratic bills this session—the big Democratic housing measure, a bill to strip from Agriculture Secretary Ezra T. Benson his power over rural electrification loans and two bills to overhaul the wheat and tobacco programs.

The TVA bill, which would allow the agency to issue up to \$750 million worth of its own bonds to finance power plant expansion, has passed House and Senate and gone to a conference committee.

President Of Omaha Publishing Firm Dies

Chicago (UPI) — Ward A. Neff, president of the firm which publishes the Omaha Journal-Stockman, died of a heart attack at Boulder Junction, Wis. He was 68.

Neff, a long-time Chicago resident and editor and publisher, had arrived with his wife to begin a Wisconsin vacation.

He is survived by his widow, whom he married last August. His first wife died several years ago.

Foreign Relations Chairman J. William Fulbright (D-Ark.) has expressed interest in the agreement.

The pending agreements would provide for exchanges of nuclear data with Greece, Britain, France, Turkey, Canada, West Germany and the Netherlands. None of them would provide for transfer of actual nuclear weapons.

About a decade ago the Soviet economist

Varga was unfrocked because he departed from the Communist Party line and pointed to special circumstances why American capitalism would not decay in the near future.

He was pushed out of the Institute of Economics for his independent thinking but, despite the disciplinary action, subsequent events have verified the accuracy of his prophecy.

Khrushchev, in his recent interview with Averell Harriman, former governor of New York, again sounded the orthodox party line about the coming of doom for the American system when he said: "In five to seven years, we will be stronger than you."

Undoubtedly, a realistic reading of the crystal ball discloses that, as the outside world picks up the principles of mass production and a widened home market, United States industry will face increased competition, but it will not come solely from Russia. The free world, especially Western Germany, a special Japan, will also demonstrate that we may have lost our uniqueness in accelerating technological progress.

But the economic realities have little relationship to Khrushchev's scare talk based on political blue sky and fallacy.

The Russian dictator, whatever his sources of strength, is in part a theoretical buffoon and economic illiterate.

One of the foundations for Khrushchev's boastfulness is his professed profound faith in Marxism.

But the Soviet growth really started with Bolshevik rejection of the basic Communist principle; namely, that each should contribute to the economic process "according to his ability" and each should receive "according to his need." Lenin discovered that such egalitarianism was harmful to productivity, and he junked the doctrine more than a generation ago with the inauguration of the five-year plans. Subsequently Russia has moved in the direction of incentives, with piece-work pay and other gadgets to inspire the worker to produce more through money incentives.

A second basic Marxist principle is that the capitalists (the owners and the investors) exploit the workers, who will rise up eventually and overthrow the proprietors. But this view does not fit the facts of life in the rapidly expanding United States, where workers today receive more and better things in exchange for a week's work than ever before.

When Harriman pointed out these truths to Khrushchev, the latter replied: "You have become so rich that until now you have been able to bribe or buy off your workers with high pay and high living standards. But," he continued, "one day, they, too, will overthrow your capitalist system."

The Marxists obviously can't have the argument both ways. Either their propaganda must be (as they have traditionally but incorrectly

held) that the capitalist exploits the worker by appropriating part of his true earnings, or the new Khrushchev doctrine that the American capitalists are "bribing workers with high pay and high living standards."

How stupid does Nikita think world opinion is?

Even if Khrushchev persuaded U.S. security holders of the validity of his dire prophecies, they obviously could not switch from American common stocks to Soviet investments. The abolition of the private property system in Russia makes this impossible.

The preferred way for the Russian elite to get ahead is to "yes" the dictator by blindly pursuing the official line of the Communist Party.

Nikita has the gall to point out that in his latter days his predecessor, Stalin, stalled the Russian operation by being unwilling to let his colleagues perform the work he was no longer able to do.

But at no point does Khrushchev concede that the weakness of the dictatorship police state lies in inability to criticize or remove the individual on top of the power heap.

Ruker was pleased to receive inquiries from readers concerning their financial problems. Letters, with self-addressed stamped envelopes, should be sent in care of this newspaper. Questions of general interest will be answered in this column.

Asks Asylum

Cpl. Ernie F. Fletcher of Covington, Ky., pictured here in a family photo, was reported by the Army this weekend to have asked for asylum in Communist East Berlin. The Army said Fletcher has been missing from his West Berlin unit since June 8.

State Range Condition Off ... 4 Points In Month

The July 1 Nebraska range condition dipped 4 points from that of a month earlier, the State-Federal Division of Agricultural Statistics reported.

The July 1 condition of 82 is 10 points below last year at the same time and 5 points below the 10-year (1948-57) average.

The division said above normal temperatures during the first half of June coupled with high winds depleted surface moisture, although later rains brought relief in most areas.

The prospects for summer and fall grazing, while below average, are still good.

The reported cattle condition of 88 is one point above last month, however. The present condition is 2 points below the condition a year ago but unchanged from the 10-year average.

Cattle showed normal seasonal gains from early pastures and are in summer bloom. The main calving season is over and marketings so far have been light.

Our Economic Competition Is Not Exclusively Russian

By Merryle S. Ruker
Boisterous Tipster Nikita S. Khrushchev up to now has failed to persuade optimistic U.S. speculators and investors, who have pushed the stock market averages to the highest peaks ever recorded, that American capitalism is on its last legs.

About a decade ago the Soviet economist

Varga was unfrocked because he departed from the Communist Party line and pointed to special circumstances why American capitalism would not decay in the near future.

He was pushed out of the Institute of Economics for his independent thinking but, despite the disciplinary action, subsequent events have verified the accuracy of his prophecy.

Khrushchev, in his recent interview with Averell Harriman, former governor of New York, again sounded the orthodox party line about the coming of doom for the American system when he said: "In five to seven years, we will be stronger than you."

Undoubtedly, a realistic reading of the crystal ball discloses that, as the outside world picks up the principles of mass production and a widened home market, United States industry will face increased competition, but it will not come solely from Russia. The free world, especially Western Germany, a special Japan, will also demonstrate that we may have lost our uniqueness in accelerating technological progress.

But the economic realities have little relationship to Khrushchev's scare talk based on political blue sky and fallacy.

The Russian dictator, whatever his sources of strength, is in part a theoretical buffoon and economic illiterate.

One of the foundations for Khrushchev's boastfulness is his professed profound faith in Marxism.

MR. TWEEDY by Ned Riddle

DID YOU KNOW THIS? IT'S A FACT:
The United Nations has recommended a worldwide minimum age of 14 for both sexes to marry.
Chicago fronts on Lake Michigan for 29 miles.
William Penn mapped the streets for Philadelphia in 1682.
Don Mix, now living in Bristol, Conn., made the first contact by radio from the Arctic to the United States in 1923-24.
For one month a year Moslems eat nothing during daylight hours.

DAILY CRYPTOQUOTE

One letter simply stands for another. In this example A is used for the three L's, X for the two O's, etc. Single letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different.

A Cryptogram Quotation

FENW AWY LWNW TQNY GQ ODW,
